World Without Borders:

World Without Borders Lester Russell Brown,1972 **Borderless Worlds for Whom?** Anssi Paasi,Eeva-Kaisa Prokkola,Jarkko Saarinen,Kaj Zimmerbauer,2018-10-25 The optimism heralded by the end of the Cold War and the idea of an emerging borderless world was soon shadowed by conflicts wars terrorism and new border walls Migrants asylum seekers and refugees have simultaneously become key political figures Border and mobility studies are now two sides of the same coin The chapters of this volume reflect the changing relations between borders bordering practices and mobilities They provide both theoretical insights and contextual knowledge on how borders bordering practices and ethical issues come together in mobilities The chapters scrutinize how bounded territorial and open networked relational spaces manifest in various contexts The first section Borders in a borderless world raises theoretical questions The second Politics of inclusion and exclusion looks at bordering practices in the context of migration The third section Contested mobilities and encounters focuses on tourism which has been an accepted form of mobility but which has recently become an object of critique because of overtourism Section four Borders security politics examines bordering practices and security in the EU and beyond highlighting how the migration border politics nexus has become a national and supra national political challenge The chapters of this interdisciplinary volume contribute both conceptually and empirically to understanding contemporary bordering practices and mobilities It is essential reading for geographers political scientists sociologists and international relations scholars interested in the contemporary meanings of borders and mobilities

No Borders Natasha King,2016-10-15 From the streets of Calais to the borders of Melilla Evros and the United States the slogan No borders is a thread connecting a multitude of different struggles for the freedom to move and to stay But what does it mean to make this slogan a reality Drawing on the author s extensive research in Greece and Calais as well as a decade campaigning for migrant rights Natasha King explores the different forms of activism that have emerged in the struggle against border controls and the dilemmas these activists face in translating their principles into practice Wide ranging and interdisciplinary No Borders constitutes vital reading for anyone interested in how we make radical alternatives to the state a genuine possibility for our times and raises crucial questions on the nature of resistance

[Proceedings of the Marine Safety & Security Council](#) ,2014 *The Quantum Revolution* Arthur Kroker,David Cook,2023-11-01 We are currently riders of the information storm AI fascinates us images mesmerize us data defines us algorithms remember us news bombards us devices connect us isolation saddens us Deeply embedded in digital technology we are the very first inhabitants of life in the quantum zone The Quantum Revolution is about life today its entanglements creativity politics and artistic vision Arthur Kroker and David Cook explore a new way of thinking drawn directly from the quantum imaginary itself They explain the quantum revolution as everyday life where technology moves fast and where under cover of the digital devices that connect us the most sophisticated concepts of technology and science originating in mathematics astrophysics and biogenetics have swiftly

flooded human consciousness shaped social behavior and crafted individual identity The book discusses the concept of the quantum zone as a new way of understanding digital culture and presents stories about art technology and society as well as a series of reflections on art as a gateway to understanding the quantum imaginary Richly illustrated with sixty images of critically engaged photos and artwork The Quantum Revolution privileges a new way of understanding and seeing politics society and culture through the lens of the duality that is the essence of the quantum imaginary *Congressional Record* United States. Congress,1973 Museum, Place, Architecture and Narrative Annika Bünz,2022-09-13 A characteristic trait of the maritime museums is that they are often located in a contemporary and or historical environment from which the collections and narratives originate The museum can thereby be directly linked to the site and its history It is therefore vital to investigate the maritime museums in terms of relationships between landscape architecture museum and collections This volume unravels the kinds of worlds and realities the Nordic maritime museums stage which identities and national myths they depict and how they make use of both the surrounding maritime environments and the architectural properties of the museum buildings
