Representation, Heterodoxy, and Aesthetics Ashley Marshall,2014-12-23 The chapters constituting this book are different in subject and method striking testimony to the range of Paulson s interests and the versatility of his critical powers In his prolific career he has produced extensive analysis of art poetry fiction and aesthetics produced in England between 1650 and 1830 Paulson s unique contribution has to do with his understanding of seeing and reading as closely related enterprises and popular forms in art and literature as intimately connected connections illustrated by literary critics and art historians here Every essay shares some of the concerns and methods that characterize Paulson s wonderfully idiosyncratic thought except for the final essay an attempt systematically to analyze Paulson s critical principles and methods Recurrent themes are a

concern with satire in the eighteenth century a connection between verbal and visual reading an insistence on the importance of individual artistic choices to the history of culture an attention to the aims and motives of individual makers of art and a sensitivity to the crucial links between high and low art This volume offers rich explorations of a range of subjects Swift's relationship to Congreve Zoffany's condemnation of Gillray and Hogarth and broader implications for the role of art in public discourse the presentation of mourning in the work of the Welsh artist and writer Edward Pugh G M Woodward's Coffee House Characters representing a turn from satire on morals towards satire on manners Adam Smith's evolving aesthetic program Samuel Richardson's notions of social reading The discussions represent a variety of exemplifications of the Paulsonesque showing a concern with satiric representation in mixed media with different forms of heterodoxy and iconoclasm and with the values of producers of popular and polite culture in this period

Anglo-Irish Identities, 1571-1845 David A. Valone,Jill Marie Bradbury,2008 This book presents a series of essays that examine the ideological personal and political difficulties faced by the group variously termed the Anglo Irish the Protestant Ascendancy or the English in Ireland a group that existed in a world of contested ideological political and cultural identities At the root of this conflicted sense of self was an acute awareness among the Anglo Irish of their liminal position as colonial dominators in Ireland who were viewed as other both by the Catholic natives of Ireland and by their English kinsmen The work in this volume is highly interdisciplinary bringing to bear examination of issues that are historical literary economic and sociological Contributors investigate how individuals experienced the ambiguities and conflicts of identity formation in a colonial society how writers fought the economic and ideological superiority of the English how the cooption of Gaelic history and culture was a political strategy for the Anglo Irish and how literary texts contributed to the emergence of national consciousness In seeking to understand and trace the complex process of identity formation in early modern Ireland the essays in this volume attest to its tenuous dynamic and necessarily incomplete nature David A Valone is an Assistant Professor of History at Quinnipiac University Jill Marie Bradbury is an Assistant Professor of English at Gallaudet University
