The fashion industry is a multibillion dollar global industry with a variety of organizational structures and a multitude of challenges. Such scope triggered the recent rise in management programs in the U.S. and Europe aiming to produce and train young managers to meet such global and diverse challenges. *Managing Fashion* covers the fashion business with a twist: a management twist. Its goal is to tackle the topics from a fashion manager perspective, referencing relevant management concepts and theories, thus offering a deeper and more practical dimension to the issues addressed. It is an opportunity to expose the fashion student or reader, as well as aspiring fashion managers, to a more practical approach to fashion theories and issues. *Managing Fashion* will serve as a core text for Fashion Studies, Fashion Entrepreneurship, and Fashion Merchandising majors, as well as for special business degrees and management certificates targeting the fashion industry.

Building Better Teams, Robert Barner, Charlotte P. Barner, 2012-05-30. Over the past 10 years in the field of human and organizational development, the approach to team building has moved from problem solving and conflict management to helping work groups and organizations build a foundation of trust, cooperation, and mutual support. Focusing on collaboration rather than resolving conflict, *Building Better Teams: 70 Tools and Techniques for Strengthening Performance Within and Across Teams* offers a fresh approach to team building. It provides proven tools for the most common needs of teams, including establishing trust, building consensus, managing change, working virtually and across boundaries, and dealing with setbacks. **Human Resource Planning**, 2006. *Leadership Resources*, 2000. *Tools for Team Excellence*, Gregory E. Huszycz, 1996. Provides comprehensive information on building, assessing, and improving team performance. *Leadership and Organizational Climate*, Robert A. Stringer, 2002. *Leadership and Organizational Climate* is a book that shows how leaders impact organizational performance by manipulating the environmental determinants of motivation. Consciously or unconsciously, effective leaders arouse and direct the motivational energy that compels people to action. This book explains

how specific leadership practices shape the dimensions of organizational climate and how different climates influence people's energies and efforts. Stringer discusses both the direct and indirect aspects of leadership: how the memory or shadow of a leader creates a certain atmosphere or climate within an organization and how this climate impacts motivation. Leadership is too often explained in terms of the leader's direct face-to-face impact on people. This book describes and validates the less dramatic but more lasting impact that certain leadership practices have on people's thoughts, feelings, and behavior. Filled with examples showing how leaders can manage performance by using organizational climate, this book attempts to be a cloud chamber for the practice of leadership; it traces the normally unseen but very real motivational influences that leaders exert when they move through an organization. For individuals looking for tools they can immediately use to improve their leadership effectiveness and organizational performance.
