The 5x questions checklist for an effective hybrid workplace model

01 What do people want?

As mentioned above, a successful hybrid work strategy and hybrid workplace model can only work if it's designed for the people.

Before making any significant decisions or investments, it's important to understand the preferences, needs, and expectations of the employees you want to attract, and the employees who will stay with you.

The way to build a hybrid work model is to first understand what your employees want and need, and then design the model to meet those needs.

How do you know what your employees want and need? The best way to find out is to ask them. Conduct surveys, focus groups, and interviews to understand what your employees want and need. Then, design your hybrid work model to meet those needs.
