Morning Coffee Jesse R. Watson Jr.,2012-01-16 Morning Coffee is a practical approach to reading and applying the Word Many people have a hard time getting going in the morning which can make for a long week This book will give people the edge they need to motivate them to make it through the day and ultimately through the week If our spirit is satisfied daily the rest of our body will fall in line Everybody feels like they need a morning cup of joe and by the power of the Holy Spirit I submitted my will to the Lord's to be used to brew up the flavor of the day So as the sun rises find a quiet place to make time for the Morning Coffee This is the right way to start your day When you are empty He will fill your cup *Black Coffee*

Topology in Process Calculus Mingsheng Ying,2012-12-06 Communication and concurrency are essential in understanding complex dynamic systems and there have been many theories to deal with them such as Petri nets CSP and ACP Among them CCS process calculus is one of the most important and mathematically developed models of communication and concurrency Various behavior equivalences between agents such as strong and weak bisimilarity observation congruence trace equivalence testing equivalence and failure equivalence are central notions in process calculus In the real applications of process calculus specification and implementation are described as two agents correctness of programs is treated as a certain behavior equivalence between specification and implementation and then the proof of correctness of programs is a task to establish some behavior equivalence between them The goal of this book is to provide some suitable and useful concepts and tools for the understanding and analysis of approximate correctness of programs in concurrent systems Throughout this book the focus is on the framework of process calculus and the main idea is to construct some natural and reasonable topological structures which can reveal suitably a mechanism of approximate computation in process calculus and to work out various relationships among processes which are compatible with these topological structures
