Phantasms of Matter in Gogol (and Gombrowicz) Michal Oklot,2009 An investigation into the problem of writing about matter in Nikolai Gogol's work and indirectly into the entire Neoplatonic tradition in Russian literature this book is not intended to be an exhaustive historical survey of the concept of matter but rather an effort to enumerate the images of matter in Gogol's texts and to specify the rules of their construction The trajectory of the book is directed by movement from Gogol to Gogol Its major assumption is that Gogol successfully develops a language for grasping the Neoplatonic concept of matter and subsequently rejects it abandoning literature Since then the Gogolian form sic of the image of a sheer negation of form has recurred frequently in Russian literature Yet the direction of the movement is always towards Gogol Somewhere at the margin of this circular trajectory one can inscribe a Polish writer Witold Gombrowicz who established one hundred years later a similar rhythm governing Polish literature from Gombrowicz to Gombrowicz      *Robinson v. City of Detroit; Cooper v. Wade*, 462 MICH 439 (2000) ,2000 110360      When the Norns Have Spoken Anthony Winterbourne,2004 One of the most striking aspects of the process of conversion of paganism into Christianity is the manner in which certain key religious concepts were modified without being totally obliterated from the new religious language Residual pagan beliefs persevered at least for a time notably that concerning fate The argument concludes that only after pagan fate was transformed into the concept of god's Providence could the problem of death and salvation in relation to God's power be made fully manifest Fate had become linked with death as a new beginning within Christian eschatology and was thus finally temporalized BOOK
