Raging against the Mass-Schooling Machine Andrew Miller,2016-12-27 The biggest danger for beginning teachers is to teach as they were taught In order to create teaching identities capable of resisting the mind numbing orthodoxies of the mass schooling machine beginning teachers need to interrogate the theories and practices that have shaped them as teachers Raging against the Mass Schooling Machine is a compelling autoethnographic account of one beginning teacher s struggle to transform his future teaching identity by unpacking the bruising encounters that shaped him as a student This is a must read book for all teachers wishing to teach against the grain The journey from student to teacher involves almost two decades of junior primary secondary and tertiary education Few of us critique this journey to see what emotional legacies and taken for granted assumptions we carry from one identity to the other If we remain unconscious of the social and cultural discourses and practices that have shaped and defined us as students and teachers we may unwittingly reproduce the inequalities prejudices and traumas we

experienced or observed while growing up or resort to transmission teaching and authoritarian control because this is the formula of schooling most of us know Empowering education relies on teachers resisting these toxic scripts and becoming agents of change **Write Source 2000** ,1999 Presents a comprehensive writing handbook that offers the basic elements of writing revising and editing forms of writing such as journaling short stories and poetry summaries and research papers and provides instruction in grammar language and sentence structure
