African Migration, Human Rights and Literature Fareda Banda,2020-12-24 This innovative book looks at the topic of migration through the prism of law and literature The author uses a rich mix of novels short stories literary realism human rights and comparative literature to explore the experiences of African migrants and asylum seekers The book is divided into two Part one is conceptual and focuses on art activism and the myriad ways in which people have sought to write justice Using Mazrui s diasporas of slavery and colonialism it then considers histories of migration across the centuries before honing in on the recent anti migration policies of western states Achime is used to show how these histories of imposition and exploitation create a bond which bestows on Africans a status as co sovereigns of the First World through citizenship The many fictional examples of the schemes used to gain entry are set against the formal legal processes Attention is paid to life post arrival which for asylum seekers may include periods in detention The impact of the increased hostility of receiving states is examined in light of their human rights obligations Consideration is paid to how Africans navigate their post migration lives which includes reconciling themselves to status fracture taking on jobs for which they are over qualified while simultaneously dealing with the resentment borne of status threat on the part of the citizenry Part two moves from the general to consider the intersections of gender and status focusing on women LGBTI individuals and children Focusing on

their human rights and the fictional literature chapter four looks at women who have been trafficked as well as domestic workers and hotel maids while chapter five is on LGBTI people whose legal and literary stories are only now being told The final substantive chapter considers the experiences of children who may arrive as unaccompanied minors Using a mixture of poetry and first person accounts the chapter examines the post arrival lives of children some of whom may be citizens but who are continually made to feel like outsiders The conclusion follows starting with two stories about walls by Hadero and Lanchester which are used to illustrate the themes discussed in the book Few African lawyers write about literature and few books and articles in Western law and literature look at books by or about Africans so a book that engages with both is long overdue This book provides fascinating reading for academics students of law literature gender and migration studies and indeed the general public

The Windrush Scandal Charles River, 2020-11-23 Includes pictures Includes a bibliography for further reading Migration was not a word I would have used to describe what I was doing when I sailed with other West Indians to England in 1950 We simply thought we were going to an England that had been painted in our childhood consciousness as a heritage and a place of welcome It is the measure of our innocence that neither the claim of heritage nor the expectation of welcome would have been seriously doubted England was not for us a country with classes and conflicts of interest like the islands we left It was the name of a responsibility whose origin may have coincided with the beginning of time George Lamming In the Castle of My Skin On the morning of June 22 1948 the HMT Empire Windrush a repurposed German troopship drew up alongside the Tilbury docks lowering its gangplanks onto the wide cobbled quays To the casual interest of the dockworkers a small army of well dressed luggage laden blacks stepped onto the shores of England looking around for the first time at their new home Most originated from Kingston the capital of the British island colony of Jamaica with a few others from Trinidad and a handful of other British Caribbean dependencies These were the men and women who led the vanguard of what would come to be known as the Windrush Generation the first substantial wave of non white immigration to the British Isles from the outer marches of the Empire Ultimately between 1948 and 1970 more than half a million souls would migrate to the United Kingdom from the

Caribbean and other non white Commonwealth countries establishing the bedrock of the British black community and prompting the first ripples of racial discomfort that would conclude in the infamous Windrush Scandal of 2018 The issue of race in the British Empire is as complex as the history of the British Empire itself The origins of the British Empire lie in the settlement of North America and the Caribbean both of which led to complex intersections of imperialism commerce and race While the first European encounters with the New World were Spanish the British arrived on the scene in a permanent way with the establishment of a General Assembly of the Leeward Islands in 1674 after which in a complex evolution in competition and conflict with other European trading powers the British West Indies finally comprised the British Leeward Islands the British Windward Islands Jamaica and other colonies such as the Cayman Islands British Honduras and the Turks and Caicos Islands The Caribbean was colonized for reasons both economic and strategic the former being the seedbed of the institution that would define the demographics of the region up to the present and impact race relations back in Britain as well The Windrush Scandal The History of the Modern Controversy and Race Relations in the British Empire examines how racism in the United Kingdom affected the empire at home and abroad Along with pictures of important people and places you will learn about the Windrush Scandal like never before *After Windrush Scandal* Errol Baptiste, 2019-05-03 Errol Baptiste have written this title book *After Windrush Scandal British Government Broken International Law in Shocking History Revelations* just 5 years ago back in April 2014 just before his 50th Birthday in reference on the cruel policy of British Government s hostile environment by assaulting the rights of non white immigrants The Windrush Generation were British subjects also born in a British colony were invited by the British Government to come and rebuild the country after the Second World War In addition the British Nationality Act of 1948 was granted in law the right to enter work and settle in Britain to all Colonial and Commonwealth Citizens There are eleven also gave very clear detail evidence starting from Hostile Environment is a breach of Human Rights and International Law that includes additional areas Windrush Scandal has Lifted the lid on the Hostile Environment Policy British Government is Violating International Law by Using Hostile Environment plus Home Office Knew Windrush Scandal Breached International Law also pointed out High Court Described Immigration Removal Notice Window by the Home Office Unlawful Furthermore British Government Hounding Commonwealth Citizens Breaches the United Nations Charter along with other story revelations that The Windrush Scandal also Exposed the British Government Broken International Law that includes further evidence Windrush Generation Members Unlawfully Detained or Deported by British Government Contravenes International Law According to ITV News just one year ago on April 16 2018 Windrush Generation Being Subjected to Cruel and Inhumane Treatment by British Government who came to Britain from the Commonwealth Caribbean countries just 70 years ago In addition the Parliament s Home Affairs Committee in Britain has blasted the Government and Home Office s treatment of the Windrush Generation by denying them their rights who came to Britain over the past 25 years from Commonwealth countries between 1948 and before 1973 The Government is using the

hostile environment policy by misclassified the Windrush Generation as illegal immigrants despite they were legal residents for decades arrived as children on their parents passports were British subject born or from a British colony British Government s Hostile Environment Policy Breaks International Law by failing to comply with the United Nations Charter related on the 30 Articles and Paragraphs of the Universal Declaration of Human Rights also British Government Must be Accountable for their Own Responsibilities Contravening International Law that includes discrimination and hostility which was linked to the hostile environment policy that led to the Windrush Scandal on April 17 2018 Amber Rudd was forced to resign as Home Secretary just 12 days later on April 29 also misled Members of Parliament by denying the information that the British Government did not have targets for removing members of the Windrush Generation as illegal immigrants According to a leak memo the Guardian says by quoting from the memo report the Home Office Department has set a target of achieving 12 800 enforced returns in 2017 18 also boast that we have exceeded our targets of assisted returns It also concluded the British Government and Home Office Department further breached the United Nations Charter on the 30 Articles and Paragraphs of the Universal Declaration of Human Rights by contravening International Law which the Windrush Generation members were detained unlawfully and deported illegally based on the Home Office using its policy whims of using the hostile environment based on different skin colour race culture background and ethnicity **Public Law** Andrew Le Sueur, Andrew P.
