*Migrant Resettlement in the Russian Federation* Moya Flynn, 2004 This timely book offers a unique insight into the individual and collective experiences of movement and resettlement among Russian migrants returning to the Russian Federation over the period 1991-2002. Moya Flynn uses different levels of analysis: local, regional, national, and global to open up fresh perspectives on the nature of the Russian migration regime and government migration policy. The book offers the first in-depth examination of non-governmental development in the area of migration in post-Soviet Russia and provides new understandings of the experience of migration and resettlement at the individual level, specifically through an exploration of understandings of home and homeland and a focus on the role of migrant networks.

**The Fall of the Russian Empire** Edmund Aloysius Walsh, 1928. Fr. Edmund Aloysius Walsh, S.J., October 10, 1885 – October 31, 1956, was an American Jesuit Catholic priest, author, professor of geopolitics, and founder of the Georgetown University School of Foreign Service, which he founded in 1919, six years before the U.S. Foreign Service itself existed and served as its first regent. Strongly anti-Communist, it is alleged that Walsh was the man who first suggested to Senator McCarthy that he use this issue in order to gain political prominence. Walsh vigorously promoted anti-Communism throughout his career.

**The Central Powers on the Russian Front 1914-1918** David Bilton, 2014-02-11. Arranged in five sections, one for each year of the war, this superbly illustrated book covers the fluid fighting that took place on the Russian Front from August 1914. The author describes how each year saw dramatic developments, notably actions in Poland, Tannenberg, the Carpathian passes in 1914; the 1915 operations in Galicia and the Baltic; and the 1916 Brusilov offensive. 1917 saw the collapse of the German army, leading to the 1918 Treaty of Brest-Litovsk and continued fighting along the Baltic and in Ukraine. The informative text is complemented by over 200 mainly previously unpublished photographs.

**The Russian Dilemma** Gordon M. Hahn, 2021-11-17. From the end of the Mongol Empire to today, Russian history is a tale of cultural, political, economic, and military interaction with Western powers. The depth of this relationship has created a geopolitical dilemma: Russia has persistently been both attracted to and at odds with Western ideas and technological development, which have tended to threaten Russia's sense of identity and create destabilizing divisions within society. Simultaneously, deepening involvement in Western international affairs brought meddling in Russian domestic politics and military invasion. This book examines how the centuries-old Western threat has shaped Russia's political and strategic structures, creating a culture of security rooted in vigilance against Western influence and interference.
