Romance of Air Fighting Now that thousands of Americans have enlisted in the Flying Corps and other thousands are
debating in their minds whether or not to follow their example a few facts concerning the work of British flying men may
prove of special interest When the War began flying was a side line with all its fascination it appeared to most people to be of
minor importance compared with the traditional tasks of strategy and the problems involved in the employment of vast
bodies of men Is there anybody alive who still holds that view Minor importance and the United States Government building
22 000 aeroplanes and arranging to spend on aviation the enormous sum of between six hundred and seven hundred million
dollars What is the truth of the matter The flying men will win the War About the Publisher Forgotten Books publishes

propaganda for recruitment and to sell the war to British youth as a moral crusade Until now this literature has been
neglected by academics but the image of the war these fictions created was remarkably enduring and despite the appearance
of post war literature of disillusioned veterans continued to shape the attitudes of the young well into the 1930s This is the
first detailed account of how adventure fiction represented the Great War for British boys between 1914 and the end of the
war Paris examines how such literature explained the causes of the war to boys and girls and how it encouraged young men
to participate in the noble crusade on the Western Front and in other theaters He explores the imagery of the trenches the
war in the air and the nature of war in the Middle East and Africa He also details the links between popular writers and the
official literary propaganda campaign The study concludes by looking at how these heroic images remained in print enduring
well into the inter war years **Pamphlets** ,1917 [War Tracts](#) ,1917 [Technological Internationalism and World Order](#)

half of the 20th century the possibility of flight opened up entirely new avenues of thought and exploration In the age of H G Wells and Biggles the opening up of the air to balloons and planes the Royal Flying Corps was founded in 1912 appealed to concepts of courage and bravery which would be both encouraged and undermined by the experiences of World War I The sky also held new terrors for everyday people who were now within reach of an airborne enemy these fears included the possibilities of bombing poison gas surveillance and social control This duality of fear and enthusiasm drove the Air Raid Precaution movement while vocal elements in the press and in parliament called for radical plans to cope with apocalyptic scenarios Here Michele Haapamaki charts the history of flight and of war in the air in the early twentieth century addressing the key issues of interwar historiography such as patriotism fear masculinity and propaganda *American History* William Harrison Mace,1925 **The Literary Digest** Edward Jewitt Wheeler,Isaac Kaufman Funk,William Seaver Woods,Arthur Stimson Draper,Wilfred John Funk,1918 **The World's Wings** Warren Jefferson Davis,1927 **Commercial Aviation** Alfred Leon Kuebler,1921 Literary Digest: a Repository of Contemporaneous Thought and Research as Presented in the Periodical Literature of the World Edward Jewitt Wheeler,Isaac Kaufman Funk,William Seaver Woods,1918 **"Putting Laws Over Wings"** Warren Jefferson Davis,1926 *The Great War* ,1919
