The Runes:

Taking Up The Runes Diana L. Paxson, 2005-05-01 Although many of us first encountered runes in J R R Tolkien's *The Lord of the Rings* this sacred alphabet is by no means a fabrication for books or movies Similar to Hebrew letters in the sense that each symbol contains a meaning that transcends its original function as a letter the runes are practical flexible and effective symbols with a variety of uses From the introduction Effective use of the runes requires both the old wisdom and the new The student must not only consciously study the meanings ascribed to the runes by earlier scholars but must internalize them Today the best known application of rune lore is divination chips or stones marked with the runes are drawn cast or laid out in patterns like tarot cards In *Taking Up the Runes* Paxson delves into the ancient historical meaning of each rune and explains their contemporary uses and meanings We discover that the real power of runes comes from inside ourselves when we find the wisdom and power within each symbol and internalize them *Taking Up the Runes* is the ultimate workbook for using the runes on a psychic spiritual and magical level Learn how to make your own rune set and how to use the runes in guided meditations and song

A Practical Guide to the Runes Lisa Peschel, 1989 This guidebook will help you discover the oracular nature of the runes and how to use them as a magickal tool for insight protection and luck [The Runes](#)

want to follow this heathen path Based on the author's personal gnosis as well as deep academic research on runes and Nordic culture this book explores the root culture of the runes both in terms of myth and of lived real folkloric experience and paves the way for understanding how to work with runes disencumbered from patriarchy and white supremacy Siri Vincent Plouff presents the traditional meanings of the runes then helps the reader to queer the runes in their own way Included are the lore associated with each rune exercises to apply them to modern life activities to engage with the runes layouts castings and galdr and advice on how to use the runes for divination Throughout the author provides journal prompts meant to help the reader channel the energy of specific runes to get to know their energy as well as to use the runes to help them move forward in a journey of self discovery Queering the Runes seeks to blow open perceptions of the runes exploring them as active living symbols available to all as well as the inherent connection with ancestral magic that comes with rune work

The Rune Primer Sweyn Plowright, 2006-11-01 Sorting fact from fiction about runes has become increasingly difficult in recent years The number of rune books has multiplied but the majority of them are based on speculation or even complete fantasy and are often contradictory and confusing Some readers may be content to settle for these but a growing number of rune students have been asking for a basic factual foundation so that they can judge for themselves the reliability of the information in the esoteric rune books The Rune Primer at last bridges the gap between the dry complex and expensive academic works and the less reliable esoteric and New Age books about rune magic and divination This book makes the old sources accessible with translations of the rune poems and the historical information presented in plain English It also traces many of the recently invented rune myths to their sources reviews some of the most popular authors and explains the ideas behind some of the modern esoteric rune systems

Nightside of the Runes Thomas Karlsson, 2019-02-12 Reveals the occult wisdom and multidimensional layers of meaning hidden in the Nordic Rune stones Explores the practice of the Uthark divination system encoded within the traditional exoteric Futhark system of reading the runes Traces the relationship between the rune stones and numerology the Cabbala alchemy Gothicism and sigil magic Examines the history of the runes and the ancient spiritual mysticism of Odin Uncovering the dark side of the Nordic rune stones hidden beneath their traditional interpretation Swedish scholar and runologist Thomas Karlsson examines the rune work of Swedish mystic and runologist Johannes Bureus 1568 1652 and professor Sigurd Agrell 1881 1937 both of whom devoted their lives to uncovering the secret uses of rune stones concealed from all but the highest initiates Karlsson begins by examining the Uthark system of divination the Left Hand Path of the runes that lies hidden under the traditional Futhark system According to the lore of Uthark a cryptographic ruse was used to make it impossible for the uninitiated to know the true order of the runes Exploring Agrell's decryption of the Uthark system Karlsson reveals similarities between the numerology of ancient mystery cults and the Runic tradition He explains the multidimensional meaning of each rune from the Uthark perspective their relationships with the nine worlds of Norse cosmogony and the magical powers of rune rows and the three aettir rune

groupings He details how to create your own magically charged runes direct and activate the force of the runes and use them for rune meditation divination sigil magic galders power songs and rune yoga Karlsson also examines the secret dimensions of the 15 noble runes the Adulrunes based on the theories of Johannes Bureus Using his knowledge of the Cabbala and alchemy Bureus created magical symbols with the Adulrunes as well as one symbol containing all 15 Adulrunes which Bureus called the Adulruna Karlsson explains Bureus spiritual system of initiation the Gothic Cabbala revealing the connections between old Norse wisdom and the Cabbala He explores Bureus Adulrune practices and explains how Bureus outlined seven levels of meaning for each rune with those initiated into the highest rune levels able to conjure spirits and raise the dead Covering more than just rune practices Karlsson s exploration of the dark or night side of the runes provides a comprehensive guide to Norse spirituality and the ancient spiritual mysticism of Odin **The Runes** James

The Academy ,1879 *Fire and Rain, Answering the Rune's Call* Sara Annon,2019-01-18 This series rises out of my personal journey with the Runes that began during a Mask Dance workshop in Northern Germany the birthplace of the runes During the week I spent in a lovely seminar house secluded in among the trees bordering the heather of the Lunebergerheide I found myself tasked with telling the story of the Runes as one of creation not destruction We used shamanic drumming and rattling to drive the visionary state and a specific body posture to guide our experience My time was spent deep in a philosophical discussion with the energetic field of the Runes It was impressed on me that the two fundamental distortions in the historical practice of Runes were the suppression of sexual energy in Christianity and the Germanic tribe s practice of ritual killing to gain personal power I was shown how this combination inherently leads to atrocities My first step was to seek out any creation stories I could find that were related to the runes Somewhat to my surprise I did not find any direct or obvious correlations between the runes names and the stories In fact the use of the runes as an alphabet turned out to be

driven by the Christian Church Then I looked into the current practice of Rune Stances and found their origins were both recent and suspect Along the way I had to admit that if the creation story of the runes was readily accessible they would not have had to grab hold of an ignorant mixed blood New Mexican to tell their tale What I had to offer was my own idiosyncratic view of the situation Since I had experience with ecstatic trance postures I wondered if rune shapes corresponded with ancient ecstatic body postures Once I turned towards the much older and more mysterious visionary roots of the Runes my path to a runic story of creation began to open I ended up with a mosaic of a sacred World Tree made of ancient bits and pieces I hope they can open creative experiential doors for those drawn to work in the runic realms Keywords Ancestry Creation Myths Ecstatic Trance Postures Epigenetics Rune Stances Runes Sacred Speech World Tree Shamanism Sustainable
