The Troubled Partnership Henry Alfred Kissinger (Homme politique, USA), 1966

Troubled Partnership Mark A. Lorell, 1995 The United States has generally tried to discourage its allies from developing their own major weapons systems to promote equipment standardization with U S forces and tie allied security policies more firmly to U S interests Japan s FS X fighter is perhaps the most prominent example of this policy Japan had originally intended to design and build an indigenous fighter the Pentagon urged Japan to buy an existing U S fighter After difficult negotiations the two sides eventually agreed to lightly modify the U S F 16 jointly to meet Japan s special needs But as a result of political controversies over technology transfer and trade the U S side focused increasingly on the economic aspects of the program Under cover of these controversies the Japanese have been able to move the FS X design and technology applications ever farther away from the F 16 toward a much more nearly indigenous creation In the end the FS X program has failed to meet many of the original U S expectations and Japan has reaped an unexpected reward experience in developing a world class fighter aircraft This book summarizes and assesses the program
