**Grasping Truth and Reality** Donald Le Roy Stults, 2009-02-26 A significant contribution to the literature on the missionary and theologian Leslie Newbigin focusing on his analysis of the spiritual problems of Western culture **From Truth to Reality** Heather Dyke, 2009-06-02 Questions about truth and questions about reality are intimately connected One can ask whether numbers exist by asking Are there numbers But one can also ask what arguably amounts to the same question by asking Is the sentence There are numbers true Such semantic ascent implies that reality can be investigated by investigating our true sentences This line of thought was dominant in twentieth century philosophy but is now beginning to be called into question In *From Truth to Reality* Heather Dyke brings together some of the foremost metaphysicians to examine approaches to truth reality and the connections between the two This collection features new and previously unpublished material by JC Beall Mark Colyvan Michael Devitt John Heil Frank Jackson Fred Kroon D H Mellor Luca Moretti Alan Musgrave Robert Nola J J C Smart Paul Snowdon and Daniel Stoljar **Essays on Truth and Reality** F. H. Bradley, 1914 *The Magic of Truth* Farah Dally, 2015 Questions of truth have occupied philosophers scientists and theologians throughout human history What is truth Does it exist How do we define truth Who determines what is true and what is not *The Magic of Truth* defends the relativity of truth by examining its role in literature the arts and science as well as in our own lives and traditions The product of intensive research on the idea of truth and the secret meaning it holds Farah Dally argues that no field of study can progress without calling into question the traditional view of truth as a clear objective image *The Doctrine of Degrees in Knowledge, Truth, and Reality* Richard Burdon Haldane Haldane (Viscount), 1919 *Reality and Truth in Literature* Irena Avsenik Nabergoj, 2013-04-24 This study provides a critical survey of views on reality and truth in the realm of philosophy and literary theory Its aim is to show how important it is to focus our critical attention on literature itself as a way of conveying a general view of totality of things with special attention to human life and death effort and suffering success and failure A work of literature and art does not characterize experience and knowledge as such but rather the response of concrete characters to the problems of human existence and fate The monograph deals with pre modern philosophical reflection on reality and truth with post modern ways of representation of reality in myth history biography autobiography and fiction and with sublime perceptions of beauty love and forgiveness The views of the writers show that there are important differences in presenting reality and truth in relation to material and historical facts But the most important distinction is in dealing with dimensions of true life of human persons in their ineffable feelings and ideas **Truth and Reality** Otto Rank, 1978 Rank s development of will psychology led him to a philosophy of the psychological outlined in *Truth and Reality* Here he explores the psychological determinants of the relationship of inner world to outer reality **Essays on Truth and Reality** Francis Herbert Bradley, 1962 **Thought** Walter Sylvester Gamertsfelder, 1920 *The Philosophical Quarterly* ,1927 **The Garden of Reality** Roland

Faber,2018-06-20 The Garden of Reality contemplates the relativity of religious truth religious pluralism transreligious discourse postmodern cosmology and multireligious mysticism Its transreligious approach aims at a future multireligious peaceful society in an ecological and cosmic context It proposes that the future of humanity is bound to conviviality with itself and the Earth that the deepest religious motivations of existing together are relative to one another and that transreligious relativity is essential to the conviction of religions that their motivations experiences and conceptualities are meaningful real and true By engaging diverse voices from poststructuralism to Sufism Dzogchen and philosophical Daoism from conceptual frameworks of Christianity and Hinduism to mystical and postmodern cosmology current cosmopolitanism and interreligious and interspiritual discourses but especially understudied contributions of process thought and the Bah religion this book suggests that multireligious conviviality must listen to the universal relevance of a multiplicity of minority voices Its polyphilic pluralism affirms the mutual immanence and co creative nature of religions and spiritualities with the universal in sistance of divine or ultimate reality in the cosmos Embracing a relativistic and evolutionary paradigm in an infinite cosmos of creative becoming religions must cope with events of novelty that disturb and connect transcend and contrast the continuum of their truth claims but must avoid conflict as religious diversity is enveloped by an ever folding landscape of ultimate reality
