Men in Color Josep M. Armengol, 2011-01-18 Comprising seven different chapters the collection Men in Color attempts to analyze and revisit the representation of ethnic masculinities both white and non white in and through contemporary U S literature and cinema If most of the existing studies on masculinity and race have centered on one specific model of racialized masculinities Men in Color attempts to provide an introductory perspective on different racialized masculinities simultaneously including African American Asian American Chicano Arab American and also white masculinity which is analyzed as another ethnic and gendered construct rather than as a paradigm of normalcy and universality By exploring several ethnic masculinities in relation to each other the present volume aims to highlight both the differences and the similarities between different patterns of masculinity showing how even as gender is inflected by race certain aspects or features of masculinity remain unchanged across the ethnic board Ultimately the volume as a whole illustrates both the changing nature of masculinities as well as the recurrence of certain stereotypes such as the hypersexualization and or the feminization of ethnic males which recur in and across several ethnicities The constant tension and intersection between gender and race is the subject of this book which hopes to contribute some notes and reflections on ethnic masculinities to the much more complex and larger discussion about gender and racial identities in our increasingly multicultural and globalized 21st century world
