Principles of Green Design Nicole Elise Esposito, 2013 A problem exists that many eco friendly products on the market today are not widely accepted by consumers Three pilot experiments were conducted to examine a few causes of poor eco friendly product acceptance The first two experiments involved the testing of alternative products to disposable plastic water bottles Two hypotheses were developed the attitude hypothesis and the user activity hypothesis The attitude hypothesis states that a person with a positive environmental attitude will lead to better eco friendly product recommendation and rating greater product uses and a greater chance of continued use The user activity hypothesis states that a product with difficult set up or cleaning will lead to a worse product recommendation and rating fewer product uses and a smaller chance of continued use Participants took home a product to test for one week and then returned to complete two surveys a demographics survey and a product evaluation survey These surveys measured variables such as environmental attitude product recommendation and rating number of uses continued use and many others The results of the experiments show a relation between environmental attitude and the participants future usage with the eco friendly product In addition the data shows that difficulty of product set up and cleaning relate to the users opinion of the product Since this methodology of testing has not been documented before the lessons learned from these pilot experiments will help to develop a framework for product testing with human subjects The third pilot experiment tests the design method of defaults which may be a powerful tool when designing eco friendly products The theory behind the default option is that people typically choose the default setting on a product regardless if it is the best option This theory was tested with the use of automatic paper towel dispensers The lengths of the paper towels that the machines dispensed were changed periodically and the paper towel usage was measured The results from this experiment indicate that users obey the rule of defaults unless their needs are not being met at an extreme level The electronic version of this dissertation is accessible from <http://hdl.handle.net/1969/1/148165>

Design and Assessment of Sustainable Products Magdalena Wojnarowska, Carlo Ingrassia, 2024-12-30 This book questions the current definition of what makes a product sustainable and argues that a holistic approach to sustainable product design is required one that considers all aspects of a product's life cycle from design to production to use

and then final disposal This edited collection introduces a new set of methods and tools aligned with the concept of comprehensive sustainable product design that integrates the environmental and social benefits of a product in line with the principles of a circular economy It provides a comprehensive understanding of the theoretical and practical framework that underpins a sustainable product highlighting the multiple key roles of eco design innovation quality and sustainability The authors describe the criteria for which products can be defined as being sustainable and outline how different manufacturing technologies influence the value of those products and the place they can find on the market accordingly The book's significant contribution lies in identifying the critical factors that are needed to successfully implement the framework throughout the entire life cycle of the product in a holistic integrated approach This book will be of interest for researchers and students studying sustainable product design environmental studies engineering and sustainable business management It will also be a useful resource for representatives of the business community managers technicians decision makers and consumers interested in sustainable product design issues

design considerations moving bed reactors bio fil - Feb 25 2022

web oct 1 2016 moving bed biofilm reactors mbbf for wastewater treatment denitrification nitrification and bod removal including mbbf background information and details of

how can i design an mbbf system researchgate - Apr 29 2022

web 16 nitrification process design organic matter removal prior to nitrification r bod 3 9 g bod 5 m²d 10 oc k t 1 06 t 10 nitrification rate when nh₄ n is the limiting

design of mbbf based sewage treatment plant for an - Feb 08 2023

web jan 17 2017 flow diagrams are shown for bod removal and for nitrification including single stage and two stage processes discussion of process design calculations

how to design mbbf tank volume and media quantity - Mar 29 2022

web dec 2 2020 how to select the right mbbf media mbbf media calculation what s the best mbbf media benefits of ssi media performance comparisons ssi aeration has

mbbf calculation sheet pdf pdf scribd - Dec 06 2022

web overview of mbbf process design calculations the key empirical design parameter used to determine the required mbbf tank size is the surface area loading rate salr in g m

modelling and process design of moving bed bioreactor mbbf - Jul 01 2022

web process design with mbbf is based on the concept that treatment is achieved with several reactors in series and that each individual reactor is designated for a specific treatment

the ultimate guide to mbbf moving bed biofilm reactor - Mar 09 2023

web the total effective surface area of an mbbf is calculated by multiplying the effective surface area of the biomedium by the mbbf reactor volume and the volumetric fil fraction

mbbf calculator enviraaj - Aug 14 2023

web online tools mbbf calculator mbbf calculator moving bed bioreactors mbbf is wastewater treatment technology in which wastewater is treated biologically by circulating moving media in aerobic and anaerobic activated sludge environments this

tool is

spreadsheets for mbbf process design calculations - Oct 04 2022

web nevertheless the bod removal rate of mbbf is only about 60 70 during high load operation 2 prenitration nitrification needs to be at very low concentrations of bod

spreadsheets for mbbf denitrification design calculations - Oct 24 2021

how to select the right mbbf media ssi ssi aeration - Nov 24 2021

mbbf process calculator an essential tool for engineers in - Apr 10 2023

web may 30 2022 when the mbbf is placed before the nitrification reactor the most economical design option is to consider the use of the mbbf for organic removal this

compact wastewater treatment with mbbf dsd - Dec 26 2021
