## **Word Magic A Personal Selection:**

Personal Choice John Wain, 1978      **Unequivocal Magic** Alex Bertram, 2026-04-28 Unequivocal Magic speaks to the quiet power of photographs and their hidden creativity bringing readers into the author's own journey into the history of a 1910 portrait of iconic French actress Sarah Bernhardt. What begins as a quest to recognize the work of her once renowned photographer Walter Barnett becomes a story about the female performer in the West whose use of image to innovate, protest, and survive public scrutiny can provide an enduring agency. Alex Bertram has always found old photographs intriguing, an interest augmented by her work as a picture researcher for a publisher. On a visit to the Victoria and Albert Museum in London, she saw a 1910 portrait of Sarah Bernhardt, the famous French actress whose career by then had spanned half a century. Beset with questions about this unidealized representation of the actress in her older age, she wondered what the photograph could tell us about Bernhardt, its photographer, or the circumstances surrounding the making of the portrait. Structured around the day Bernhardt had her picture taken in that London studio, Unequivocal Magic traces the travel of the portrait on its life journey, with Bertram returning again and again to this single day in 1910. Bertram's narrative likewise embraces her own creative response upon seeing the portrait for the first time, enveloping that moment into her engagement with and close examination of the lives and work of both Barnett and Bernhardt.

*The Languages of Magic* Toby Chappell, 2025-04-08 Introduces key ideas in linguistics and semiotics to reveal how magic works. Reveals how to apply effective communication techniques to your magical practice. Includes case studies of magical schools such as Hermetic magic, sigil magic, Thelema, the Church of Satan, Chaos Magic, and the Temple of Set. In this illuminating and deeply informative guide, practicing magician Toby Chappell takes readers on a journey into the heart of what it means to transform reality by exploring what magic is. He explains that operative magic works because it is communication. The practitioner of magic is communicating with the unmanifest to align the outside world with their inner transformations, desires, and needs. Drawing on linguistics and the analytical techniques of semiotics, the author explores how we perceive and affect the world by treating it like a partner in communication. He shows how this notion of magical communication appears in ancient practice, looking specifically at Hermetic magic and the spells of Greek magical papyri, sigil magic, Enochian magic, and runes. He explains the symbol building necessary to effectively transform your inner and outer reality with magical speech, signs, and sigils. The author examines the languages of magic in modern New Thought practices and he also looks at magical communication in several modern and postmodern schools of magic, including Thelema and the teachings of Aleister Crowley, The Temple of Psychick Youth, the Church of Satan, Chaos Magic, and the Temple of Set. Revealing how to apply techniques of effective communication to the magical realm, the author allows you to deepen your understanding of magical practice and ultimately perform magic with greater success.
