Structure and Process in Southeastern Archaeology Roy S. Dickens, H. Trawick Ward, 1985 A Dan Josselyn Memorial Publication Within the general structure and process theme of this compendium the authors have focused on either intrasite problems those dealing with the formation and structure of a site type of site or type of feature or intersite problems those dealing with behavioral organization and process as developed from comparative site data These papers from a broad range of specialists present a comprehensive study of southeastern archaeology

Structure and Process in Southeastern Archaeology is a foundational work that reshapes how scholars understand the cultural and social dynamics of prehistoric communities in the Southeastern United States Roy S Dickens Jr and H Trawick Ward bring together decades of fieldwork theoretical insight and regional expertise to explore how ancient societies organized themselves interacted and evolved over time Rather than focusing solely on artifacts or isolated site reports this volume emphasizes the broader patterns both structural and processual that define the archaeological record of the Southeast Through a careful synthesis of settlement data material culture and environmental context the authors reveal how social organization political structures and cultural practices were deeply embedded in the landscape Their approach integrates processual archaeology with a nuanced understanding of regional variation offering readers a dynamic view of how prehistoric communities adapted to changing conditions and interacted across space and time This book is particularly valuable for archaeologists anthropologists and historians seeking to move beyond descriptive accounts toward more interpretive frameworks It provides a model for analyzing archaeological data in ways that illuminate the lived experiences of ancient peoples making it a vital resource for both academic research and classroom instruction The authors clear writing and thoughtful analysis make complex ideas accessible without sacrificing scholarly rigor Whether you re studying Mississippian chiefdoms Woodland period settlements or the broader cultural landscapes of the American South *Structure and Process in Southeastern Archaeology* offers essential tools for understanding the past It stands as a testament to the importance of theory driven context rich archaeological interpretation

the English plantation system the northern fur trade of the English and the French Dutch and English trade of Indian slaves and deerskins in the South This book covers the full geographic and social scope of the Southeast including the indigenous peoples of Florida Virginia Maryland the Appalachian Mountains the Carolina Piedmont the Ohio Valley and the Central and Lower Mississippi Valleys

Archaeology as a Process Michael John O'Brien, R. Lee Lyman, Michael B. Schiffer, 2005 The publication in 1962 of Lew Binford's paper *Archaeology as Anthropology* is generally considered to mark the birth of processualism a critical turning point in American archaeology In the hands of Binford and other young University of Chicago graduates of the 1960s this new archaeology became the mainstream approach in the U S The realignment that the processualists proposed was so thorough that its effects are still being felt today Predictably processualism also spun off a number of other isms several of which grew up to challenge its supremacy *Archaeology as a Process* traces the intellectual history of Americanist archaeology in terms of the research groups that were at the forefront of these various approaches concentrating as much on the archaeologists as it does on method and theory thus setting it apart from other treatments published in the last fifteen years Peppered with rare photographs of well known archaeologists in some interesting settings the book documents the swirl and excitement of archaeological controversy for the past forty years with over 1 600 references and an in depth treatment of all the major intellectual approaches The contributors examine how archaeology is conducted the ins and outs of how various groups work to promote themselves and how personal ambition and animosities can function to further rather than retard the development of the discipline

The Archaeology of Food and Identity Katheryn C. Twiss, 2007 The chapters in this topically and methodologically diverse volume discuss the role food plays in the construction and maintenance of multiple levels of social identity they also illustrate the myriad ways in which archaeologists may approach the issue The book includes essays from archaeologists working in a wide range of time periods and areas prehistorians and historical archaeologists specialists in the Old World and experts on the New World Contributors use diverse data sets to discuss how food procurement strategies consumption patterns and modes of cooking and dining are intertwined with the construction and maintenance of individual and group identities

Town Creek Indian Mound Joffre Lanning Coe, 2012-12-30 The temple mound and mortuary at Town Creek in Montgomery County is one of the few surviving earthen mounds built by prehistoric Native Americans in North Carolina It has been recognized as an important archaeological site for almost sixty years and as a state historic site has become a popular destination for the public This book is Joffre Coe's illustrated chronicle of the archaeological research conducted at Town Creek a project with which Coe has been intimately involved for more than fifty years since its inception as a WPA program in 1937 Written for visitors as well as for scholars *Town Creek Indian Mound* provides an overview of the site and the archaeological techniques pioneered there surveys the history of the excavations and features more than 200 photographs and maps The book carefully reconstructs the archaeological record including plant and animal remains pottery sherds stone tools and clay ornaments In

Commoners, Tribute, and Chiefs Stephen R. Potter,1993

When Captain John Smith explored the Potomac River in 1608 it was a frontier between two of the most politically complex Indian cultures in the Middle Atlantic region the Conoy chiefdom of southern Maryland and the Powhatan chiefdom of eastern Virginia Some of these diverse Algonquian speaking peoples acknowledged the overlordship of the Piscataways the largest group of the Conoys others acknowledged the authority of the paramount chief Powhatan and still others like the Patowomekes acknowledged no ruler greater than their own The rise and fall of these polities is the subject of *Commoners Tribute and Chiefs* Using an innovative combination of archaeology anthropology and ethno history Stephen Potter traces the rise of one Indian group the Chicacoans whose domain on the south shore of the Potomac straddled the boundary between the Powhatans and the Conoys By presenting a case study of the Chicacoans from A D 200 to the early seventeenth century Potter offers readers a window onto the development of Algonquian culture in the Chesapeake and illuminates the responses of its constituent societies to the invading Europeans He examines the stratification of individual chiefdoms into elites and masses of tribute paying commoners and he demonstrates the progressive consolidation of Algonquian peoples in the century preceding the European influx While most previous scholarship on the Indians of the Potomac has centered on the historic accounts of Captain John Smith and his contemporaries Potter draws extensively on a wealth of materials encountered during his years of research His fascinating narrative succeeds both as a detailed archaeological and ethnohistorical studyof the Chicacoans and as a comprehensive interpretation of Algonquian culture

Archaeology of Eastern North America ,1998

Feasts Michael Dietler,Brian Hayden,2001

From the Ancient Near East to Modern Day North America communal consumption of food and drink punctuates the rhythms of human societies Feasts serve many social purposes establishing alliances for war and marriage mobilizing labor creating political power and economic advantages and redistributing wealth This collection of fifteen essays combines ethnographic and archaeological perspectives to examine the cultural economic and political importance of feasts considering traditional and modern practices from Africa Southeast Asia the Near East Polynesia New Guinea and the Americas Recording types and quantities of food preparation techniques and numbers of

participants the ethnographers provide a much needed behavioral context and theoretical framework for these intricate social interactions and attempt to link feasting practices to physical evidence The archaeologists examine the locations of roasting pits hearths and refuse deposits or the presence of special decorative ceramics and infer the ways in which feasting traditions reveal social structures of lineage clan moiety and polity As practices for organizing ancient and modern societies feasts are intimately implicated in the processes of social and cultural change This book makes these rituals more accessible to archaeological analysis and interpretation Jacket **Archaeological Series** ,1982
