**Edward Burnett Tylor**

## **Tree Cultures:**

*Tree Cultures* Paul Cloke, Owain Jones, 2020-07-12 The relationship between nature and culture has become a popular focus in social science but there have been few grounded accounts of trees Providing shelter fuel food and tools trees have played a vital role in human life from the earliest times but their role in symbolic expression has been largely overlooked For example trees are often used to express nationalistic feelings Germans drew heavily on tree and forest imagery in nation building and the idea of hearts of oak has been central to concepts of English identity Classic scenes of ghoulish trees coming to life and forests closing in on unsuspecting passers by commonly feature in the media In other instances trees are used to represent paradisaical landscapes and symbolize the ideologies of conservation and concern for nature Offering new theoretical ideas this book looks at trees as agents that co constitute places and cultures in relationship with human agency What happens when trees connect with human labour technology retail and consumption systems What are the ethical dimensions of these connections The authors discuss how trees can affect and even define notions of place and the ways that particular places are recognized culturally Working trees companion trees wild trees and collected or conserved trees are considered in relation to the dynamic politics of conservation and development that affect the values given to trees in the contemporary world Building on the growing field of landscape study this book offers rich insights into the symbolic and practical roles of trees It will be vital reading for anyone interested in the anthropology of landscape forestry conservation and development and for those concerned with the social science of nature

**Tree Cultures** Paul Cloke, Owain Jones, 2020-07-12 The relationship between nature and culture has become a popular focus in social science but there have been few grounded accounts of trees Providing shelter fuel food and tools trees have played a vital role in human life from the earliest times but their role in symbolic expression has been largely overlooked For example trees are often used to express nationalistic feelings Germans drew heavily on tree and forest imagery in nation building and the idea of hearts of oak has been central to concepts of English identity Classic scenes of ghoulish trees coming to life and forests closing in on unsuspecting passers by commonly feature in the media In other instances trees are used to represent paradisaical landscapes and symbolize the ideologies of conservation and concern for nature Offering new theoretical ideas this book looks at trees as agents that co constitute places and cultures in relationship with human agency What happens when trees connect with human labour technology retail and consumption systems What are the ethical dimensions of these connections The authors discuss how trees can affect and even define notions of place and the ways that particular places are recognized culturally Working trees companion trees wild trees and collected or conserved trees are considered in relation to the dynamic politics of conservation and development that affect the values given to trees in the contemporary world Building on the growing field of landscape study this book offers rich insights into the symbolic and practical roles of trees It will be vital reading for anyone interested in the anthropology of landscape forestry conservation and development and for those concerned with the

social science of nature      **The Cultural Value of Trees** Jeffrey Wall,2022-06-01 This volume focuses on the tree as a cultural and biological form and examines the concept of folk value and its implications for biocultural conservation Folk value refers to the value of the more than human living world to cultural cohesion and survival as opposed to individual well being This field of value comprising cosmological aesthetic eco erotic sentimental mnemonic value and much more serves as powerful motivation for the local performance of environmental care The motivation to maintain and conserve ecology for the purpose of cultural survival will be the central focus of this book as the conditions of the Anthropocene urgently require the identification understanding and support of enduring self perpetuating biocultural associations The geographical scope is broad with chapters discussing different tree species from the Americas and the Caribbean East Asia Eurasia and Australia and Africa By focusing on the tree one of the most reliably cross culturally valued and cross culturally recognized biological forms and one which invariably defines expansive landscapes this work illuminates how folk value binds the survival of more than human life forms with the survival of specific peoples in the era of biocultural loss the Anthropocene As such this collection of cross cultural cases of tree folk value represents a low hanging fruit for the larger project of exploring the power of cultural value of the more than human living world This book will be of great interest to students and scholars of conservation biodiversity biocultural studies and environmental anthropology      **The Heritage of Trees** Fred

Hageneder,2001 A wide ranging study of the symbolism and cultural meaning of the tree through history from the Cosmic Tree of antiquity to modern European American and Asian customs and beliefs In the companion volume *The Spirit of Trees* Fred Hageneder captivated readers with a passionate and informed account of the natural life and ecology of trees *The Heritage of Trees* evokes forest customs images and meanings of the forest from the Stone Age to modern times

*Tree-culture in New Zealand* Henry John Matthews,1905 The continued development of the colony and the rapid extension of settlement has increased the demand for timber to such an extent that the question of forest tree planting for future supplies has been forced upon the attention of the people who are fully prepared to support systematic government action it has now been decided to assist settlers by supplying information in regard to all subjects connected with the raising and planting of trees whether for ornament shelter or as a source of timber supply for the future and with this object in view the present volume has been compiled for the use of settlers Preface      *Phytopathology* ,1915      **Bulletin** Canada.
