Faye Marbley, 2021 *Developing alternative student development frameworks and models* this groundbreaking book provides student affairs practitioners as well as faculty with illuminating perspectives and viable approaches for understanding the development of today's diverse student populations and for building the foundation for their academic success and self-actualization. With the increasing number of adult working students, minoritized, multiracial, LGBTQ, and first-generation students, this book offers readers vital insights into and ways to interrogate existing practice and develop relevant responses to the needs of these populations. Building on and critiquing the past frameworks and integrating the insights of contemporary scholarship on student development, the contributors collectively put forward a robust theoretical and methodological foundation for this work using Critical Race Theory as their central frame. CRT allows chapter authors to situate race-related encounters at the center of their proposed alternative framework or model and deconstruct and challenge commonly held assumptions about diverse college student development. In the tradition of CRT, each author offers an alternative model or framework that can be applied to the diverse population upon which the chapter is framed, prompting readers to address such questions as: Who are our college students? What set of experiences do our students bring to the higher education context? What role have their environments (contexts) i.e. home, peer, community, family, peer groups, mentors played in our students' lives? What impact have intervening variables i.e. race, oppression, power had on their experiences? What strategies do they use to overcome developmental obstacles? How do they define success and how do they know they have achieved it? By laying bare the experiences of these diverse college students that inform this volume's alternative frameworks, this book contests that notion that they constitute square pegs that must fit into the round holes of traditional frameworks.

Resources in Education, 1990 **Critical Perspectives on Student Development Theory** Elisa S. Abes, 2016-06-14

The use of critical and post-structural theories such as critical race theory, intersectionality, and queer theory to explore student development is relatively new. Most current research looks beyond the individual to how systems of oppression such as racism, ableism, and heterosexism mediate student development and the nature of student development theory. This volume offers some of the most contemporary thinking about student development by reviewing recent critical post-structural scholarship, offering new possibilities for using theoretical lenses and translating these theories into student affairs practice. This is the 154th volume of the Jossey-Bass higher education quarterly series. An indispensable resource for vice presidents of student affairs, deans of students, student counselors, and other student services professionals, *New Directions for Student Services* offers guidelines and programs for aiding students in their total development: emotional, social, physical, and intellectual.
