The chameleon Clarence Forestier- Walker,1903 **The Chameleon Variation** Carsten Hansen,2017-11-08 Confront the Sicilian on Your Own Terms In 1982 the late Ken Smith s publishing house Chess Digest published the first edition of Andy Soltis small monograph *Beating the Sicilian The Chameleon Variation* It was well received and a second edition came out in 1990 It proposed a very flexible way for White to handle the Sicilian Defense using the move order 1 e4 2 Nc3 and 3 Nge2 It kept most of White s options open and allowed White to lure Black into unfamiliar territory The Sicilian jungle is vast Unless you have a massive amount of time on your hands it is an exhausting task to keep a sharp opening repertoire together against Black s numerous possibilities It does not mean that it is impossible nor does it mean that you shouldn t do it But for the average player with an average amount of time available for chess studies it is important to pick the right battles This is where our weapon the Chameleon Sicilian comes in handy Would you be interested in possibly tricking Black into playing something he would otherwise not be inclined to play That s where the Chameleon is useful Aside from its flexibility the greatest strength of this opening is that it is so relatively unexplored For some of the sub variations the author has used most of the master games that could find for other lines only the most relevant games In any case there are plenty of opportunities to explore further and find ideas of your own This is fertile ground and your seeds could well sprout to become new branches of theory The journey of the Chameleon continues in this thorough comprehensive update by well known author Carsten Hansen *The General Care and Maintenance of True Chameleons* Philippe de Vosjoli,1992-10 Chameleons Petr Nečas,1999 Written by an experienced chameleon breeder this text is based on the knowledge acquired during the author s field trips to Africa to study these incredible creatures in their natural environment **The Autobiography of a Chameleon** Cornelia Donovan O'Donovan Calhoun,1930 The Chameleon Josephine Preston Peabody,1917 *The Structure, Development, and Evolution of Reptiles* Angus d'A.
