**Usaf Air Commando Secret Wars from Laos to Latin America** Eugene D. Rossel,2016-07-15 The Air Commando secret wars happened mostly during the Vietnam War time frame and was a global effort involving USAF volunteer personnel who were given official military orders that did not necessarily specify the country they served in and civilian clothes were many times authorized Later they had great difficulty proving that they served in many of these countries which affected their future VA care These operations were used to strengthen normally a poor country with little military resources and training with secret warriors frequently being there doing some of their legwork behind the scenes All the operations were tight lipped frequently forbidden to tell families where you were and what you were doing As an example Capt Bob Simpsons death the first fighter pilot KIA in Vietnam in August 1962 became a total fabrication of where why and how and took a number of years before the government came clean because of my efforts Secret wars have a long history and they will continue because of the interest of more powerful nations with their less fortunate brethren [Air Commando One](#) Warren

Government,2018-04-19 This Air Force publication provides a detailed history of Operation Thursday a bold unconventional use of American air power to support British ground troops in Burma during World War II It marked a critical development in the history of modern warfare On March 5 6 1944 the Allies conducted an air invasion of Burma in an attempt to push back the Japanese in the China Burma India Theater and reestablish the land route between India and China U S airmen formed a special operations unit the 1st Air Commando Group to transport troops to jungle locations and resupply them often in the line of fire The remarkable success of this operation lives on fifty years later among the elite 1st Air Commando Group a force committed to meeting the challenge of unconventional warfare any time any place anywhere After Pearl Harbor the devastating blow against the U S Fleet in Hawaii Imperial Japanese forces quickly overran much of the Far East Guam Hong Kong Malaya the Philippines Thailand Wake Island French Indochina and the Dutch East Indies all succumbed to the Japanese onslaught Meanwhile American forces were busy preparing for a protracted war on two fronts and the British were struggling against Hitler s aggressive air campaign With the Allies thus diverted Japan s rapid conquests gave the resource poor nation access to the rubber oil tin rice and other raw materials needed to fuel the Imperial war machine Allied hopes for stopping the enemy advance in Asia were pinned on Burma a country of jungles and mountain ranges strategically located between India and China By 1941 the Japanese had nearly cut China off from the rest of the world The meager Chinese resistance was being supplied via the Burma Road that extended from India through Burma to the town of Kunming China If Japanese forces could occupy Burma they could seal off China and release their troops for other operations on the continent Burma would then become a staging area into India the jewel of the British empire Burma itself was valuable as rice bowl capable of producing eight million tons of rice per year food badly needed by the already overextended Imperial Army In the grand strategy a Japanese controlled Burma would also shield the newly organized Far East Territories from the Allied advance Burma s terrain and climate limited the military operations of both the invaders and defenders Steep mountain ranges and river valleys alternated north and south Only few trails through the hills connected Burma with India and Thailand and most commerce went through the port of Rangoon on the Irrawaddy delta Monsoon rains

created logistical nightmares Annual rainfall varied from 200 inches in the Rangoon area to 100 inches in the hills and up to 45 inches in the northcentral dry zone Military forces avoided the monsoon rains mid May to late October restricting their operations to the dry season In the tropical climate malaria and other diseases could also bring operations to a standstill Almost everything the Air Commandos did was an important First First air unit designed to support a ground unit First composite air unit First air unit employed with total autonomy First aerial invasion into enemy territory First nighttime heavy glider assault landing First night combat glider recovery First glider airlift of large animals First major employment of light airplanes in combat First air unit to employ helicopters First rescue by combat helicopter First firing of rockets from aircraft in combat *U.S. Air Services*, 1945

**Apollo's Warriors: U. S. Air Force Special Operations During the Cold War - Secret Psywar Weapons, Indochina War, Air Commandos, Covert War Missions** Air University Press, U. S. Military, Department of Defense (DoD), Michael E. Haas, U. S. Air Force (USAF), 2017-04-09 In *Apollo's Warriors* Michael Haas brings to life the critical albeit little known contributions US Air Force special operations forces have made to the exercise of air and space power The author focuses in particular on the period between the Korean War and the Indochina wars of 1950-79 The Korean War marked the first major use of Air Force special operations capabilities during the cold war Capabilities previously employed during the Second World War were quickly resurrected and used to conduct unconventional warfare missions on the land and sea as well as in the air Once these capabilities were available USAF special operations personnel found themselves constantly engaged in psychological covert and search and rescue operations far north of the 38th parallel until the war ended in 1953 During the period between 1953 and the initial force deployments to Laos and South Vietnam in the early 1960s the Air Resupply and Communications ARC units had the primary responsibility for USAF special operations The role of USAF special operations changed dramatically with the increased involvement of the United States in the Second Indochina War One of the more interesting changes was the reconstitution of the Air Commando concept of the Second World War During that war the Air Commandos conducted effective aerial invasions throughout the China Burma India theater Building on this legacy the Air Commandos of the Vietnam era initially were the focal point for training Laotian pilots and conducting unconventional warfare operations in Laos By 1968 they had proved so valuable that their role had been expanded to encompass all USAF special operations in Indochina As a reflection of this broader mission the Air Commandos were renamed the Special Operations Forces
