

The Nude

Jorgen Fogh

The Nude:

The Nude Kenneth Clark, 1972-10-21 A landmark study of the nude in art from the ancient Greeks to Henry Moore by a towering figure in art history In this classic book Kenneth Clark one of the most eminent art historians of the twentieth century examines the ever changing fashion in what constitutes the ideal nude as a basis of humanist form from the art of the ancient Greeks to that of Renoir Matisse and Henry Moore The Nude reveals the sensitivity of aesthetic theory to fashion what distinguishes the naked from the nude and just why the nude has played such an important role in art history As Clark writes The nude gains its enduring value from the fact that it reconciles several contrary states It takes the most sensual and immediately interesting object the human body and puts it out of reach of time and desire it takes the most purely rational concept of which man is capable mathematical order and makes it a delight to the senses and it takes the vague fears of the unknown and sweetens them by showing that the gods are like men and may be worshipped for their life giving beauty rather than their death dealing powers

The Nude Mouse in Experimental and Clinical Research Jorgen Fogh, 2014-01-01 The Nude Mouse in Experimental and Clinical Research presents the state of knowledge regarding the nude mouse and its applications to different branches of scientific research The research studies featured in this book emphasize the academic status of a broad range of subjects and techniques of nude mouse research The text consists of 21 chapters each discussing an important aspect of nude mouse research Some chapters discuss the biological aspect such as physiology genes and breeding and mass production of the mouse A number of the chapters also discuss the general observations of the mouse like histopathological observations and their background The applications of the nude mouse to human tumor and cancer cell research are likewise given emphasis This book will be of valuable importance to both students and researchers in the fields of medicine biology and pathology

The Nude Mouse in Oncology Research Epië Boven, 2018-01-18 The nude athymic mouse nu nu has become generally accepted as a valuable tool to study the biology and therapy of human cancers This volume presents a critical review of the scientific merits of the animal as a recipient of human tumor tissue transplants Important information is provided regarding biology immunology and measures for genetic and microbiological control of the nude mouse The discussion of transplantation sites and transplantability of human tumor tissue to the animals includes both the description of host factors and the tumor type involved The characterization and monitoring of xenografts is followed by a review on their possible application for studies in tumor biology such as hormones growth factors drug resistance tumor markers and heterogeneity Experimental therapy is dedicated to cytostatic agents hormones monoclonal antibodies cytokines differentiation inducers and radiotherapy The book also provides critical remarks regarding the limitation of the nude mouse tumor models The Nude Mouse in Oncology Research will provide essential reference information for oncology researchers researchers who work with the nude mouse on a regular basis and pharmaceutical companies
