Through Loss:

Living Through Loss Nancy R. Hooyman, Betty J. Kramer, 2006-02-07 Living Through Loss is the first book to identify the many ways in which people experience loss over the course of life and to discuss the interventions most effective at each stage of life The authors starting point is that loss comes in many forms and can include not only suffering the death of a person one loves but also giving birth to a child with disabilities living with chronic illness or being abused assaulted or otherwise traumatized They approach loss from the perspective of the resilience model which acknowledges the capacity of people to integrate loss into their lives and write sensitively about the role of age race culture sexual orientation gender and spirituality in a person s response to loss More than a comprehensive source on loss the volume is distinguished by the authors beautiful use of clients experiences and their own thus making their book definitive and indelible

On Grief and Grieving Elisabeth Kübler-Ross, David Kessler, 2005-07-19 Finding the meaning of grief through the five stages of loss

Grief Is a Journey Kenneth J. Doka, 2016-04-12 In this volume of rare sensitivity penetrating understanding and profound insights Rabbi Earl A Grollman author of Living When a Loved One Has Died Dr Kenneth Doka explores a new compassionate way to grieve explaining that grief is not an illness to get over but an individual and ongoing journey There is no one size fits all way to cope with loss The vital bonds that we form with those we love in life continue long after death in very different ways Grief Is a Journey is the first book to overturn prevailing often judgmental ideas about grief and replace them with a hopeful inclusive personalized and research backed approach New science and studies behind Dr Doka s teaching upend the dominant but incorrect view that grief proceeds by stages Dr Doka helps us realize that our experiences following a death are far more individual and much less predictable than the conventional five stages model would have us believe Common patterns of experiencing and expressing grief still prevail yet many other life changes accompany a primary loss For example the deaths of parents even for adults modify family patterns change relationships and alter old family rituals Unique to this book Dr Doka also explains how to cope with disenfranchised grief the types of loss that are not so readily recognized or supported by society These include the death of ex spouses as well as non fatal losses such as divorce the end of a friendship job loss or infertility In addition Dr Doka considers losses that might be stigmatized including death by suicide or from disease or self destructive behaviors such as smoking or alcoholism And finally Dr Doka reminds us that however painful grief provides opportunities for growth
