Selected Works on Old New England and Colonial Days Alice Morse Earle, 2020-09-28

From the hour when the Puritan baby opened his eyes in bleak New England he had a Spartan struggle for life In summer time he fared comparatively well but in winter the ill heated houses of the colonists gave to him a most chilling and benumbing welcome Within the great open fireplace when fairly scorched in the face by the glowing flames of the roaring wood fire he might be bathed and dressed and he might be cuddled and nursed in warmth and comfort but all his baby hours could not be spent in the ingleside and were he carried four feet away from the chimney on a raw winter s day he found in his new home a temperature that would make a modern infant scream with indignant discomfort or lie stupefied with cold Nor was he permitted even in the first dismal days of his life to stay peacefully within doors On the Sunday following his birth he was carried to the meeting house to be baptized When we consider the chill and gloom of those unheated freezing churches growing colder and damper and deadlier with every wintry blast we wonder that grown persons even could bear the exposure Still more do we marvel that tender babes ever lived through their cruel winter christenings when it is recorded that the ice had to be broken in the christening bowl In villages and towns where the houses were all clustered around the meeting house the baby Puritans did not have to be carried far to be baptized but in country parishes where the dwelling houses were widely scattered it might be truthfully recorded of many a chrisom child Died of being baptized One cruel parson believed in and practised infant immersion fairly a Puritan torture until his own child nearly lost its life thereby Dressed in fine linen and wrapped in a hand woven christening blanket a bearing cloth the unfortunate young Puritan was carried to church in the arms of the midwife who was a person of vast importance and dignity as well as of service in early colonial days when families of from fifteen to twenty children were quite the common quota At the altar the baby was placed in his proud father s arms and received his first cold and disheartening reception into the Puritan Church In the pages of Judge Samuel Sewall s diary to which alone we can turn for any definite or extended contemporary picture of colonial life in Puritan New England as for knowledge of England of that date we turn to the diaries of Evelyn and Pepys we find abundant proof that inclemency of weather was little heeded when religious customs and duties were in question On January 22d 1694 Judge Sewall thus records A very extraordinary Storm by reason of the falling and driving of the Snow Few women could get to Meeting A child named Alexander was baptized in the afternoon He does not record Alexander s death in sequence He writes thus of the baptism of a four days old child of his own on February 6th 1656 Between 3 and of fifteen children of his friend Cotton Mather but two survived their father This religious ordeal was but the initial step in the rigid system of selection enforced by every detail of

the manner of life in early New England The mortality among infants was appallingly large and the natural result the survival of the fittest may account for the present tough endurance of the New England people Nor was the christening day the only Lord s Day when the baby graced the meeting house Puritan mothers were all church lovers and strict church goers and all the members of the household were equally church attending and if the mother went to meeting the baby had to go also I have heard of a little wooden cage or frame in the meeting house to hold Puritan babies who were too young or feeble or sleepy to sit upright Of the dress of these Puritan infants we know but little Linen formed the chilling substructure of their attire little thin linen short sleeved low necked shirts Some of them have been preserved and with their tiny rows of hemstitching and drawn work and the narrow edges of thread lace are pretty and dainty even at the present day At the rooms of the Essex Institute in Salem may be seen the shirt and mittens of Governor Bradford s infancy The ends of the stiff little linen mittens have evidently been worn off by the active friction of baby fingers and then been replaced by patches of red and white cheney or calico The gowns are generally rather shapeless large necked sacks of linen or dimity made and embroidered of course entirely by hand and drawn into shape by narrow cotton ferret or linen bobbin In summer and winter the baby s head was always closely covered with a cap or biggin often warmly wadded which was more comforting in winter than comfortable in summer The seventeenth century baby slept as does his nineteenth century descendant in a cradle frequently made of heavy panelled or carved wood and always deeply hooded to protect him from the constant drafts Twins had cradles with hoods at both ends Judge Sewall paid sixteen shillings for a wicker cradle for one of his many children The baby was carried upstairs when first moved with silver and gold in his hand to bring him wealth and cause him always to rise in the world just as babies are carried upstairs by superstitious nurses nowadays and he had scarlet laid on his head to keep him from harm He was dosed with various nostrums that held full sway in the nursery even until Federal days Daffy s Elixir being perhaps the most widely known and hence the most widely harmful It was valuable enough in one sense of the word to be sharply fought over in old England in Queen Anne s time and to have its disputed ownership the cause of many lawsuits Advertisements of it frequently appear in the Boston News Letter and other New England newspapers of early date The most common and largely dosed diseases of early infancy were I judge from contemporary records to use the plain terms of the times worms rickets and fits Curiously enough Sir Thomas Browne in the latter part of the seventeenth century wrote of the rickets as a new disease scarce so old as to afford good observation and wondered whether it existed in the American plantations In old medical books which were used by the New England colonists I find manifold receipts for the cure of these infantile diseases Snails form the basis or rather the chief ingredient of many of these medicines Indeed I should fancy that snails must have been almost exterminated in the near vicinity of towns so largely were they sought for and employed medicinally There are several receipts for making snail water or snail pottage here is one of the most pleasing ones The admirable and most famous Snail water Take a peck of garden Shel Snails wash them well in Small Beer and put them in an

oven till they have done making a Noise then take them out and wipe them well from the green froth that is upon them and bruise them shels and all in a Stone Mortar then take a Quart of Earthworms scowre them with salt slit them and wash well with water from their filth and in a stone Mortar beat them in pieces then lay in the bottom of your distilled pot Angelica two handfuls and two handfuls of Celandine upon them to which put two quarts of Rosemary flowers Bearsfoot Agrimony red Dock roots Bark of Barberries Betony wood Sorrel of each two handfuls Rue one handful then lay the Snails and Worms on top of the hearbs and flowers then pour on three Gallons of the Strongest Ale and let it stand all night in the morning put in three ounces of Cloves beaten sixpennyworth of beaten Saffron and on the top of them six ounces of shaved Hartshorne then set on the Limbeck and close it with paste and so receive the water by pintes which will be nine in all the first is the strongest whereof take in the morning two spoonfuls in four spoonfuls of small Beer the like in the Afternoon The Works of

Ebersole,2002-06-03 Frank Ebersole is a philosopher whose contribution to philosophy is the greatest of anyone this the 20th century especially in the areas of philosophy of language theory of knowledge and perception from Wittgenstein Empiricism and Language by John W Cook Oxford University Press 1999 Language and Perception has nine chapters seven that address philosophical problems about language and two chapters 2 and 9 that are more metaphilosophical The metaphilosophical chapters discuss philosophical pictures and some of Frank Ebersole s basic ideas about philosophy The other seven essays let you participate in his unique struggles to come to terms with such questions as What is the meaning of a word Isn t Wittgenstein s idea that things called by the same name have family resemblances significantly flawed Does language determine what we perceive Does a thing s being red cause it to look red the causal theory of perception Must the action of speaking be analyzed into simpler actions such as making sounds Can a bodily movement be part of an action Is fatalism implied by what one might say about the future Are natural kind words like proper names are they rigid designators This and its companion volume Meaning and Saying are not just other philosophy books about the philosophy of language In both books Ebersole by carefully using examples convincingly shows that the problems are the products of philosophical pictures The examples also make the pictures less compelling How the Second Edition Differs from the First Edition This edition differs from the first edition University Press of America 1979 in several ways Pictures Material that was formerly part of a postscript to chapter 1 has been revised and is now its own chapter chapter 2 Pictures and Wittgenstein on Pictures As a result the following chapters were renumbered Essay removed Chapter 7 in the first edition Truth and Fate Future Actions has been removed Essay added A new essay entitled Proper Names and Other Names has been added to the volume It s a revised version of an essay originally published in Philosophical Investigations Oct 1982 with the title Stalking the Rigid

Designator Postscript Material that was formerly part of the preface is now revised and placed as chapter 9 at the end entitled Postscript Improved text Throughout the book Ebersole has made corrections stylistic improvements and changed the wording to remove ambiguities Preface The book is concerned with questions about the relations of language to reality Does physical reality predetermine the form of our language Does it determine the kinds of words in our simple basic vocabulary Does our language in basic ways determine the way we perceive reality Does our language embody the outlines of a certain theory of perception And does it incorporate a certain view of human actions and of the future These questions are expressions of the problems in the philosophy of language that people inevitably get themselves into while dealing with other philosophical problems And these are problems in the philosophy of language that have direct consequences for the way one deals with problems in other branches of philosophy At *Heart on a Shoestring* Marilyn Grey, 2014-11-24 Not sure Take the quiz on Marilyn Grey com to find out if the Unspoken Series is right for you Books 1 5 of the Unspoken Series are also available as a discounted box set A quirky romance about two broken hearts melting into one beautiful story of self discovery and overcoming the past Dreaming of the person you want to be is wasting the person you already are Kurt Cobain The Unspoken Series is a 10 book series Books 1 5 are available now Best when read in order What Readers Are Saying Heartbreakingly beautiful story with a slightly whimsical romance Don t know how its possible but this series just keeps getting better And I guess I shouldn t say better because I fall in love with every single character so better wouldn t be the right word I love how the characters from the previous books make appearances in each of the newer books keeping you updated with the happenings surrounding them and weaving their stories into the current main characters This book is deep and heartwarming It is my favorite book so far in the series and also the most sincere and heartbreaking These stories are so different from most of the other romance books I read The characters always pull me in I got this book yesterday and couldn t put it down until I was done reading it Book 4 in the Unspoken Series *Rebelling against a life of black and white* Miranda Ryan paints the world in a technicolor fever She spends her free time on park benches analyzing people from the outside in and creating whimsical stories about their lives Unbridled and full of life her ever changing heart is a revolving door no man can figure out And she likes it that way But when Derek Rhodes enters her life he stubbornly challenges her every move As she unsuccessfully avoids this opinionated prankster her colors fade to gray and she is forced into a choice to lose the self she knows or the self she has never been Derek Rhodes wears the same shade of brown every day and avoids eye contact with strangers until Miranda walks into his life and splashes his world with streaks of colors he swore he d never touch Drawn to her imaginative personality he finds himself questioning his own cynical nature and flat lined ideals only to fall in love and realize the only woman he s ever let into his heart has no plans of letting a man into hers Follow them both as they poke and prod and test each others limits on a journey of discovery **Shakespeareana** ,1885 *How Flowers Made Our World* David George Haskell, 2026-03-24 An exquisite exploration of the power of flowers placing them at the center of the
