Commerce 4.0: A Simple Guide to the Future of Business Digital Trends, Ethical Practices & Career Pathways Mr. Praveen K. P, Dr. Jithin Scaria, Ms. Chippy Surendran, 2025-07-30

Maker Education Meets Technology Education, 2023-09-04 In this book two fields meet Technology Education with its long history and Maker Education a relative new shoot in the educational field Both focus on learning through making and both value agency and motivation of learners The purpose of this book is to understand and analyze the kind of informal and formal educational activities that take place under the umbrella of the Maker Movement and then relate this to the field of Technology Education to uncover what researchers innovators and teachers in this field can learn from the principles ideas and practices that are central to the Maker Movement and vice versa The book contains two types of chapters The first type is case study chapters that span from Mexico China Korea Denmark the Netherlands to Kenya and from primary to tertiary level showing a variety of good practices in maker education including both formal and informal contexts In the subsequent thematic chapters dedicated authors have used the case studies to reflect on themes such as curriculum reform social learning materiality spatial thinking informal versus formal learning as well as the sustainability of learning and relate what is happening in Maker Education with Technology Education to imagine possible futures for Maker Education

The Re-use Atlas Duncan Baker-Brown, 2024-10-01 Do you know how to design for a circular economy A truly sustainable circular economy is both a robust and viable option for architecture Through 24 inspirational case studies interviews and essays this book is an accessible and practical guide to how architects can move from a linear economy towards a circular economy This atlas to sustainable closed loop systems takes the reader on a journey through four distinct steps Recycle Reuse Reduce Circular Economy that show how they can dramatically reduce the negative impact humans have on the planet It gives architects the skills and knowledge to navigate through the emerging fields of resource management

towards a true Circular Economy Each step is supplemented with an in depth interview with an expert who is successfully tackling one or more of the challenges facing all designers today If we change our behaviour we enable humanity to work with nature rather than against it Be part of the change *The Re-Use Atlas* Duncan Baker-Brown,2019-07-25 This book is a highly illustrated map using photos infographics and statistics showing designers how they can successfully navigate the emerging field of resource management and the circular economy Using the Brighton Waste House Project as a basis for this the book will look at key moments and landmark decisions made during its design and construction as well as the people and projects from around the world that inspired them Environment, Ethics and Cultures Kay Stables,Keirl Steve,2015-02-27 This collection engages environmental ethical and cultural values perspectives to show how Design and Technology D second of D third by taking global and multiple perspectives rather than say Western or mono cultural positions and fourth by demonstrating D T s capacities for working in holistic and integrative cross curricular ways The authors show how students can not only learn about their potential as humans as designers but can also develop designerly capacities that enable them to contribute meaningfully in practical ways to their communities and to wider society that is as global citizens who can apply design capability in ethical ways that are respectful of peoples cultures and environments alike Sustainable Design from Vision to Action Jeremy Faludi,2025-08-22 This book offers a comprehensive guide to the sustainable design of products services or related systems It goes beyond concept explanations to provide you with practical instructions on how to apply the tools and methods to your own designs The world is finally waking up to the necessity of sustainability especially in the design and engineering of all the physical products that surround us every day Sustainable Design from Vision to Action not only provides a thorough understanding of the high level values and goals of sustainable design but also gives readers actionable step by step guides for how to implement them on the ground in daily practice This includes quick reference tables and other resources for practical design with lists of resources for greater depth The activities can be used by designers and engineers in classrooms or in industry This innovative textbook focuses primarily on physical product development but also applies to services systems and digital products It includes a thorough range of quantitative and qualitative methods across the whole product life cycle including material choice energy use systems thinking design for recycling user behavior change business models equity and inclusion and more The book aims to change your design practice to help build a world that is healthy abundant beautiful and fulfilling for all species for all time This highly illustrated text will provide an excellent introduction to sustainable design in practice for industrial design and mechanical engineering students It will also be useful for professional designers engineers and managers in industry A Changemaker's Guide to the Future Anders Lendager,Ditte Lysgaard Vind,2018-12-23 This is A changemaker s guide to the future A book to read to grasp and to act on Our global population and resource consumption are on the rise But with the current threats of climate change we need to lower our emissions greatly By combining circular economy with design innovation and technology we can live up to

the growing demand without affecting our environment or livability negatively In our book on circular economy we lay out the road map for a regenerative society and provide tools examples and incentives to harness the extraordinary power of business as a source of good Sustainability makes viable businesses and viable businesses drive sustainable development For us it s that simple The choice is yours *Digital Twin, Blockchain, and Sensor Networks in the Healthy and Mobile City* Tuan Anh Nguyen,2025-02-28 In smart cities information and communication technologies are integrated to exchange real time data between citizens governments and organizations Blockchain provides security for communication and transactions between multiple stakeholders Digital twin refers to a simulation of physical products in a virtual space This simulation fully utilizes the physical models wireless sensor networks and historical data of city operation to integrate big information digital twin cities under multidiscipline multiphysical quantities multiscale and multiprobability Digital Twin Blockchain and Sensor Networks in the Healthy and Mobile City explores how digital twins and blockchain can be used in smart cities Part 1 deals with their promising applications for healthy cities Part 2 covers other promising applications and current perspectives of blockchain and digital twins for future smart society and smart city mobility Together with its companion volume Digital Twin and Blockchain for Sensor Networks in Smart Cities this book helps to understand the vast amount of data around the city to encourage happy healthy safe and productive lives Describes the fundamentals of blockchain and digital twin Explores how blockchain and digital twin work with smart sensor networks Discusses how future technologies can benefit the healthcare of everyday lives Explains how intelligent sensor networks can be used in a healthy and mobile city **Remanufacturing and Remanufacturability Assessment for the Circular Economy** Yang Shanshan,S. K. Ong,A.Y.C. Nee,2022-12-02 This book presents decision support tools that can be used in the early design stage to analyze the feasibility of a product and its components for remanufacturing It also covers how to design a product specifically for remanufacturing and offers supporting case studies This is a comprehensive solutions guide for remanufacturing decision making The book illustrates an approach that can be used at the product End of Life EOL stage to generate optimized recovery plans for the returned products Opportunities for Industry 4 0 to support remanufacturing along with case studies are included to showcase the decision making tools Remanufacturing and Remanufacturability Assessment for the Circular Economy A Solutions Guide will be of interest to practitioners business professionals and researchers that work in the industrial and manufacturing sectors Those involved with supply chain management and advanced technologies associated with Industry 4 0 sustainability and integrated techniques of circular supply chains will also find this book very useful [The EIB Circular Economy Guide](#) ,2019 The EIB supports the transition to the circular economy This guide explains why and how that can be achieved The EIB Circular Economy Guide aims to promote a common understanding of circular economy and raise awareness about and promote circular solutions The Guide provides information about EIB s lending and advisory activities in this field and communicates our vision of how the EIB can further support the transition to a circular economy The Guide is a living

document that will be updated in response to our evolving understanding of circular economy needs opportunities and risks and growing experience with the appraisal and financing of circular economy projects **Home Economics Circular**
