Your Sun Signs:

Your Sun Sign as a Spiritual Guide Swami Kriyananda,2013-10-07 What sets this book apart from other astrology titles is Kriyananda's focus on the spiritual potential of each sun sign rather than focusing mainly on the karmic limitations. It is so common to hear generalizations such as Leo is proud and Taurus is stubborn. In his book Kriyananda shows how with awareness, attention, and will, one can cultivate the higher potential of his sign, leading to greater fulfillment and success. Leo can shine as a channel of light and creativity without pride if he remembers that Spirit, not ego, is the doer. Taurus can be the essence of loyalty and perseverance without being stubborn if he develops an inner fixity of purpose while practicing an outward flexibility. In other words, the horoscope shows karmic patterns of energy. We can learn to work with these energies and develop their more refined, higher octaves, which will then magnetize new possibilities into our lives. The fundamental point is that the horoscope shows one's karmic energy situation but not who he really is, the spiritual Self within. Kriyananda's approach is to encourage and inspire one's Self to awaken and to express itself through the sun sign. Within each of us is vast potential to be awakened. *Your Sun Sign as a Spiritual Guide* is a beautifully inspiring book that will open doors and encourage one in this direction. This book also guides the seeker to an understanding of the subtle aspects of the spiritual path as it manifests for him through his particular sun sign. Yogic understanding is rich and often runs counter to prevailing thought. So too with astrology, the reader will find vistas of understanding opening as he takes the words and guidance of this yogic view of astrology to heart. This book reassures the reader that sun sign weaknesses can be spiritual strengths if pursued rightly. It also warns one not to rest on the laurels of sun sign strengths but to go much deeper. Concentrated, deep wisdom is available to the seeker in this brief, easy-to-digest book that helps the reader to understand himself and others from a higher perspective.

13 Sun Signs of the Zodiac Dr. Regina Atara Wead,2014-10-29 Using the Sidereal Zodiac like Nostradamus, an astrologer and metaphysician, shares her insight about the blending of Eastern and Western astrology in *The Zodiac Conspiracy*. This book underscores the omission of Ophiuchus, a major constellation that the Greeks left off the tropical zodiac wheel. It includes a brief section on Ophiuchus, the only constellation named after a real man named Imhotep. *The 13 Sun Signs of the Zodiac* outlines the differences between popular tropical astrology that you read in the daily horoscopes and the science/astronomy of sidereal astrology. This book merges the sidereal and tropical systems to help us understand how the tropical zodiac represents who we are learning to be while the sidereal zodiac represents who we really are. Rev. Dr. Martin Luther King Jr. was really a Sagittarian. The Seeker who was learning how to be a Capricorn goat climbing up the mountain to become The Achiever. Jesus was probably born under the sign of Virgo to a virgin mother. However, he was really a Libra. The Peacemaker who was learning how to be a Virgo. The Selfless Servant. All of this and much, much more is explained in this extraordinary book.

Understanding Sun Sign Astrology Donette Smock,2005-10 Almost everyone s exposure to astrology begins by learning their sign or Sun Sign When someone asks what s your sign for the first time you re likely to figure it out based on your birthday Then you can look up interpretations for your Sun Sign as well as read your daily horoscope The Sun Signs Aries through Pisces have a mythical connection to the constellations whose names correspond to the signs of the Zodiac This sequence of signs in the Zodiac and the corresponding schedule of dates in the calendar year are perhaps the most widely known and available pieces of astrological information When you read your horoscope it is based on the effects that the planets have on your Sun Sign while they are moving through the various areas of the sky There are also sectors or houses the planets enter that have an effect on your Sun Sign The purpose of this book is to provide the basics on Sun Sign Astrology and Sun Sign Horoscopes Have you ever been confused by your horoscope stating something like when Jupiter enters your sign on the 24th you will or as Saturn enters your 7th house Now you have a reference guide to understand what exactly those phrases mean You can look up the planets effect the signs and the sectors or houses and truly understand Sun Signs are fun and somewhat accurate but I encourage you to look at the section Beyond at the back of the book to develop some understanding about the effect of full natal astrology
