Arabic in the Fray Yasir Suleiman, 2013-07-22 The pre modern period saw a background of inter ethnic strife among Arabs and non Arabs mainly Persians Starting from the symbolic and cognitive roles of language Yasir Suleiman shows how discussions about the inimitability and untranslatability of the Qur'an in this period were at some deep level concerned with issues of ethnic election In this respect theology and ethnicity emerge as partners in theorising language Staying within the symbolic role of language Suleiman goes on to investigate the role of paratexts and literary production in disseminating language ideologies and in cultural contestation He shows how language symbolism is relevant to ideological debates about hybrid and cross national literary production in the Arab milieu In fact language ideology appears to be everywhere and a whole chapter is devoted to discussions of the cognitive role of language in linking thought to reality

Transnational Belonging and Female Agency in the Arts Basia Sliwinska, Catherine Dormor, 2022-10-20 Transnational Belonging and Female Agency in the Arts interrogates the politics of space expressed via womxn's artistic practices which prioritise solidarity and collaboration across borders imagining attentive geographies of difference It considers belonging as a manifestation of processes of becoming that traverse borders and generate new spaces and forms of difference In doing so the book aims to catalyse mutual social relations founded upon responsibility and response ability to each other The transnational framework activates concerns around belonging at a time of intensified divisions partitioning global narratives unequal trajectories and increasing violence against bodies of the most vulnerable largely founded on Eurocentric paradigms of political economic and cultural superiority The contributors engage in a conversation signalling transversal thinking and artmaking in order to articulate and activate in between spaces This is to welcome co affective models of belonging that question versatile embodiments of subjectivity as both agentic and as interrelational Organised around the triangulation of modes of belonging spatial affective and collective overarched by a transnational lens that acknowledges non hierarchical local and socially relevant genealogies against universalising politics of globalisation these essays consider afresh ways in which female agency disrupts borders and activates concerns around different forms of belonging citizenship and transnationalisms Cover Image credit Keren Anavy Garden of Living Images 2018 general installation view detail Courtesy of the artist and Wave Hill Photographer Stefan Hagen

Starr-LeBeau,2018-06-05 On June 11 1485 in the pilgrimage town of Guadalupe the Holy Office of the Inquisition executed Alonso de Paredes a converted Jew who posed an economic and political threat to the town s powerful friars as a heretic Wedding engrossing narratives of Paredes and other figures with astute historical analysis this finely wrought study reconsiders the relationship between religious identity and political authority in late Medieval and early modern Spain Gretchen Starr LeBeau concentrates on the Inquisition s handling of conversos converted Jews and their descendants in Guadalupe taking religious identity to be a complex phenomenon that was constantly re imagined and reconstructed in light of changing personal circumstances and larger events She demonstrates that the Inquisition reified the ambiguous religious identities of conversos by defining them as devout or more often heretical And she argues that political figures used this definitional power of the Inquisition to control local populations and to increase their own authority In the Shadow of the Virgin is unique in pointing out that the power of the Inquisition came from the collective participation of witnesses accusers and even sometimes its victims For the first time it draws the connection between the malleability of religious identity and the increase in early modern political authority It shows that from the earliest days of the modern Spanish Inquisition the Inquisition reflected the political struggles and collective religious and cultural anxieties of those who were drawn into participating in it *The works of Henry Wadsworth Longfellow, with Life of Longfellow by R.
