The Education System is Broken Cathy S. Tooley, 2016-04-05 The intent of this book is to look at our educational system as it currently works and to evaluate not only why this system is broken but also how we might move forward together to fix it So how do we fix our failing schools We begin by finally taking the educator out from behind the desk and bring them to the table to share in the decisions and solutions regarding what is happening in our schools It is time to part the curtains on our public school system and show you the villains the heroes the talented and the not so talented It is time to give you a behind the scenes view of our educational stage
