Help! I'm Teaching Middle School Science C. Jill Swango, Sally Boles Steward, 2003 Like your own personal survival guide. Help IOCom Teaching Middle School Science is a nontechnical how-to manual. Especially for first-year teachers. But even veteran teachers can benefit from the plentiful ideas, examples and tips on teaching science the way middle schoolers learn best. The book covers all the basics: what to do on the first day of school, including icebreaker activities, preparing safe and effective lab lessons, managing the classroom, working with in-school teams as well as parents. But its practical and encouraging approach doesn't mean it shortchanges the basics of effective pedagogy. You'll learn how to handle cooperative learning and assessment, how to help students write effectively and the importance of modeling for early adolescents.

Centered on a study of 98 principals in Pennsylvania, New Jersey and North Carolina, seven chapters explore the strategies used by principals in their responsiveness to students, to faculty and staff and to their schools and communities.
