The Affirmation

The Affirmation:

The Affirmation Christopher Priest, 2011-10-13 Peter Sinclair is tormented by bereavement and failure In an attempt to conjure some meaning from his life he embarks on an autobiography but he finds himself writing the story of another man in another imagined world whose insidious attraction draws him even further in THE AFFIRMATION is at once an original thriller and a haunting study of schizophrenia it has a compulsive dream like quality The Affirmation Workbook for Children Jennie Thompson, 2013 A practical and simple workbook filled with 25 positive affirmations with space for illustration and personalization by children Parents of school age children homeschoolers teachers child psychologists pediatricians guidance counselors self help enthusiasts art therapists and occupational therapists can all benefit from sharing this workbook with children **The Affirmation Crisis** Randy Hix, 2018-08-28 There is an Affirmation Crisis It is the result of fatherlessness Generations have grown up without a father Whether physically or emotionally absent it leaves in the child a wound of absence Fatherlessness has become a major social problem in America even an epidemic with approximately 50% of children under the age of 18 not living in the same home as their biological father It has been documented in many ways and yet it is a secret hidden in plain view Over the last fifty years the family has been under attack Concepts and opinions concerning the family have changed and a new perception of family has emerged Much of the destruction of the family has been popularized and normalized through the media and arts and entertainment The large percentage of marriages that end in divorce and the increasing trend of out of wedlock births seems to have contributed to a widespread belief that being a single parent is somehow a noble venture and that the father is unimportant to raising children There are indeed many exceptional single parents But these are the exceptions to the rule as statistics prove It is as if there were a systematic scheme in the works to destroy our society by using progressive cultural engineering The influence of popular approaches to the family in the media that rejects traditional and biblical norms of family construction is creating a confused depressed and fractured population Men and women with a confused self identity and self confidence are the product of this fatherlessness epidemic and this affirmation crisis Today after over a hundred years of cultural fatherlessness we have seen multiple generations who have grown up without the father's emotional and often physical influence and support Combine that with two world wars economic challenges media influence rising divorce rates sexual identity conflict and you are left with a generation of wandering fatherless children Many of these fatherless children are wounded adults who continue to live their lives not knowing that they are suffering from the wound of absence referred to as the father wound The father wound in short is the absence of the emotional blessing that only the father can provide to the child One of the major responsibilities of the father is the modeling and impartation of true fatherhood A father is the God given instrument that identifies the child as well as gives the child a sense of self and self confidence This is true for both men and women Every young man is waiting for his father to tell him he has what it takes Every young woman is waiting for a father to show her that she is beautiful and

worthy to be pursued and protected Every young man looks to his father for affirmation and identity Every young girl is looking to the father for her identity and affirmation as a woman The father identifies the child The father calls forth the masculine in the son and the femininity of the daughter Without this essential input from Dad the boy struggles to see himself as a man and the girl struggles to identify as a woman Their spirit cries out for a father to save them Our fathers have a special role to play in our discovery of who we are in life This is why a father telling his child a statement like You ll never amount to anything has such a devastating effect On the other hand a father who lovingly affirms his child is giving him a solid foundation towards developing into a healthy well adjusted adult In The Affirmation Crisis Pastor Teacher and Missionary Randy Hix details the serious impact this fatherlessness epidemic is having on our society and individuals Randy explains our Heavenly Father s original plan for the family and how to receive the needed affirmation and healing needed to mend the wounded heart

15 contain reports of King s Bench cases only **The Formula for Happiness** Steven N. Czetli,Douglas R. Ramm,2011-06-02 The Formula for Happiness is a self help book which popularizes cutting edge discoveries made by a board certified clinical psychologist about the nature of happiness and the behaviors and beliefs which enable people to become and remain happy His groundbreaking way of understanding life and how to live has attracted worldwide attention since it was originally introduced to the scientific community in New Ideas in Psychology an international journal of innovative theory in psychology in 1996 This is a peer reviewed journal produced by the worlds largest publisher of original scientific work and overseen by an editorial board consisting of faculty from departments of psychology in several of the worlds leading universities The Formula for Happiness presents this paradigm for the pursuit of happiness in a format which is entertaining and easily understood It familiarizes readers with what they need to become and remain happy and how to proceed with their personal pursuit of happiness Readers are provided with an objective means of measuring current levels of happiness as well as methods for increasing happiness and forecasting the effect potential courses of action are likely to have on their happiness at some future point in time The Formula for Happiness is the product of an innovative approach to the study of happiness which incorporates and surpasses research currently going on in the field of positive psychology in a number of important ways It is based on generalizations emerging from the review of massive amounts of positive psychology research integrated with insights into the nature of happiness emerging from the fields of clinical and developmental psychology It provides a comprehensive and coherent set of propositions about the nature of happiness which is different from anything available elsewhere in scientific and self help literature today The Formula for Happiness is the first solidly scientifically

based self help book to assert that happiness is primarily a matter of how people are situated with respect to the circumstances of their lives Beyond making this assertion it actually specifies exactly which circumstances make a difference in the of quality of human life It precisely identifies what we require in order to become and remain happy The Formula for Happiness is also the first solidly scientifically based self help book to assert that happiness is a matter of choice In addition to advancing this proposition it provides readers with the only set of scientifically formulated guidelines for making choices which have happiness as their effect It is the first book to present a set of principles for the pursuit of happiness which like the principles of nutrition and health are the product of scientific reasoning and research In showing readers how happiness is mainly a matter of circumstances and that circumstances are largely a matter of choice The Formula for Happiness provides a new and much needed counterpoint to most of the thinking within psychology as well as much of what is available on the self help market today Instead of promoting the notion that happiness is a matter of what we think how we perceive or how we interpret things The Formula for Happiness shows readers how quality of life is a matter of the way things really are and what we actually do It is the first self help book to provide a blueprint for constructing a durable high quality life In addition to presenting a pioneering paradigm for the pursuit of happiness The Formula for Happiness contains a set of newly developed psychometric instruments Readers can use these instruments to measure happiness to develop goals for personal strategic planning and to make momentous decisions such as what to major in at college which career to pursue whether to take a particular job whether to remain in a romantic relationship whether to get married whether
