The True Religion:

The True Religion of God , Each person is born in a circumstance which is not of his own choosing The religion of his family or the ideology of the state is thrust upon him from the very beginning of his existence in this world By the time he reaches his teens he is usually fully brain washed into believing that the beliefs of his particular society are the correct beliefs that everyone should have However when some people mature and are exposed to other belief systems they begin to question the validity of their own beliefs The seekers of truth often reach a point of confusion upon realizing that each and every religion sect ideology and philosophy claims to be the one and only correct way for man Indeed they all encourage people to do good So which one is right True Religion. [By J. Barker.] ,1845 **True Religion** Graham Ward,2008-04-15 Through reference to plays poetry novels films and painting this manifesto traces the genealogy of true religion in the western world and makes six controversial claims about the past present and future of religion Traces a transformation in the way religion is understood and performed in the western world Makes several major claims about the past present and future of true religion Uses cultural metaphors as ways into understanding religion Refers to plays poetry novels paintings and films including Romeo and Juliet Moby Dick The Exorcist and Stigmata Suggests that the end of wars between nations could result in a return of wars of faith Part of the prestigious Blackwell Manifestos series The true religion of God Abu Ameenah Bilal Philips,1997 True Religion.
