Colwill, 2021-08-23 A capacity for learning adapting and changing is an important facet of organizational resilience What is involved in generative organizational change Is it an event a process or constantly ongoing What makes organizational change good for the organization Who has the power to decide what is good for the organization and its members How is it decided What if there is strong disagreement or conflict How is that handled What is the role of organizational members and leaders in these discussions As these questions demonstrate the triad of change power and conflict are intimately linked The purpose of this book is to explore the topics of change power and conflict as they relate to the experiences of everyday organizational life It will provide readers the opportunity to reflect critically on their own local experience and involvement in organizations and to glean actionable wisdom for meaningful engagement and impactful contributions to their organizations in the present and future Conflict Power and Organizational Change will be of interest to students researchers academics and professional colleagues interested in the fields of business and organizational studies especially those wanting to get acquainted with the concepts of change power and conflict in contemporary organizational settings **Two Faces of Globalization** Dilip K. Das, 2009-01-01 Like the ancient Roman god Janus globalization has two faces one benign and the other malign In this comprehensive and authoritative book Dilip K Das fills a gap in the literature by examining both aspects of the contemporary phase of economic globalization Because globalization has had both welfare enhancing propitious consequences as well as detrimental ones it has become an acutely contentious subject matter among both scholarly and public policy making communities Contemporary globalization cannot be studied without a balanced treatment of both facets The author provides precisely that covering large thematic areas of the global economy and globalization through the channels of trade financial flows attention to newly emerging trends as well as historical perspective Neither overly technical nor highly model oriented this accessible book will be of great interest to scholars students and other readers interested in a broad and balanced view of globalization *The Two Faces of Political Apathy* Tom DeLuca, 1995 This inclusive study examines the extraordinarily high rates of political nonparticipation in the United States and the political historical institutional and philosophical roots of such widespread apathy To explain why individuals

become committed to political apathy as a political role Tom DeLuca begins by defining the two faces of political apathy The first rooted in free will properly places responsibility for nonparticipation in the political process on individuals Political scientists and journalists however too often overlook a second more insidious face of apathy a condition created by institutional practices and social and cultural structures that limit participation and political awareness The public blames our most disenfranchised citizens for their own disenfranchisement Apathetic citizens blame themselves DeLuca examines classic and representative explanations of non participation by political analysts across a range of methodologies and schools of thought Focusing on their views on the concepts of political power and political participation he assesses current proposals for reform He argues that overcoming the second face of apathy requires a strategy of real political equality which includes greater equality in the availability of political resources in setting the political agenda in clarifying political issues and in developing a public sphere for more genuine democratic politics Author note Tom DeLuca is Assistant Professor of Political Science at Fordham College at Lincoln Center He has been a long time activist on local and national issues especially nuclear arms control and his op ed pieces on politics have appeared in The New York Times New York Newsday The Nation and The Progressive
