

# The Myth of Christian Uniqueness

Toward a Pluralistic Theology  
of Religions

John Hick  
AND Paul F. Knitter  
EDITORS

A stylized illustration of a mountain range with a white crescent moon on a green background. The mountains are rendered in black and white, with a white line tracing the peaks and valleys. The background is a solid green color.

*Faith Meets Faith Series*

# The Uniqueness Myth

**Jacob Grimm**

## **The Uniqueness Myth:**

**The Myth of Christian Uniqueness** John Hick, Paul F. Knitter, 2005-01-25 A new model of Christian theology the pluralistic model is taking shape moving beyond the traditional models of exclusivism Christianity as the only true religion and inclusivism Christianity as the best religion toward a view that recognizes the possibility of many valid religions In this volume a widely representative group of eminent Christian theologians Protestant and Catholic male and female from East and West First and Third Worlds explores genuinely new attitudes toward other believers and traditions expanding and refining the discussion and debate over pluralistic theology Contributors are Gordon D Kaufman John Hick Langdon Gilkey Wilfred Cantwell Smith Stanley J Samartha Raimundo Panikkar Seiichi Yagi Rosemary Radford Ruether Marjorie Jewitt Suchocki Aloysius Pieris Tom F Driver and Paul F Knitter

**Handbook of Japanese Mythology** Michael Ashkenazi, 2003-11-05 An introductory guide to the mythology of Japan one of the most pervasive yet least understood facets of Japanese culture Handbook of Japanese Mythology makes it easy to travel this vast yet little known mythological landscape The book reveals the origins of Japan's myths in the very different realms of Buddhism Shinto and folklore and explores related mythologies of the Ainu and Okinawan cultures and recent myths arising from Japan's encounters with modernization It then offers vivid retellings of the central Shinto and Buddhist myths plus descriptions of major historical figures icons rituals and events For students or long time enthusiasts it is the ideal guide for investigating Japanese reverence for the sun the imperial family and the virtues of purity and loyalty Readers will also learn why sumo wrestlers stomp before each match how a fussy baby creates thunder why Japan has a god for soccer and much more

[Studies in Jewish Myth and Messianism](#) Yehuda Liebes, Yehudah Liebes, 1993-01-01 This book deals with the nature and development of Jewish myth from the Talmudic period through Kabbalah to Hasidism It describes the changes in this myth in its various stages and the external influences on it The author shows that myth is in the essence of the Jewish religion and that rather than being created out of external influences Kabbalah is one of its manifestations The book also deals with the related subject of Messianism and delves into the special spiritual personalities of some messianic figures in Jewish history to show how myth was incarnate in them

*Culture Shock and Multiculturalism* Edward Dutton, 2011-11-15 It used to be widely accepted amongst anthropologists that when they conducted fieldwork with foreign cultures they experienced something called culture shock This book will argue that culture shock is a useful model for understanding an important part of human experience However in its most widely known form the stage model culture shock has been heavily influenced by the same anti science latter day religiosity that has become so influential more broadly Multiculturalism This book will examine culture shock through the model of religion It will show how the most well known model of culture shock so popular amongst business consultants expatriates international students and travelers has become a means of promoting and sustaining this replacement religion which includes everything from dogmatism and fervour to conversion experience By so doing it will aim both to better understand

culture shock and to show how it can still be useful if divorced from its implicitly religious dimensions to broadly scientific scholars It will also suggest how anthropology itself might be stripped of its ideological infiltration and returned to the realm of science

The Semantics of Development in Asia Jin Sato, Soyeun Kim, 2024-05-30 This open access book explores Japanese involvement in Asian development through selected development ideas and lexemes that are widely regarded in Japan as untranslatable into other languages Each chapter traces the genealogy of locally nuanced development ideas and lexemes in Japan and the process by which they have spread across Asia and beyond through Japan's development cooperation The Semantics of Development in Asia critically examines the diverse Western and non-Western roots of Japanese development ideas and lexemes and their shifting semantics shaped by the ever-changing national international political economies and dominant development thinking of different eras The volume contributes to a more pluriversal approach to knowledge production in development studies through its in-depth examination of vernacular Japanese ideas This book is useful to researchers students and teachers in the fields of Asian studies development studies and international relations It is also of value to policymakers and practitioners whose professional interests include development cooperation by and with Asian countries

**Mythic-Symbolic Language and Philosophical Anthropology** David M.

Rasmussen, 2012-12-06 This book will attempt to achieve a constructive and positive correlation between mythic symbolic language and philosophical anthropology It is intended as a reflection on the philosophical accomplishment of Paul Ricoeur The term mythic symbolic language in this context means the language of the multivalent symbol given in the myth with its psychological and poetic counterparts The term symbol is not conceived as an abstract sign as it is used in symbolic logic but rather as a concrete phenomenon religious psychological and poetic The task inherent in this correlation is monumental when one considers the dual dilemma of problematic and possibility which is at its heart The problematic arises out of the apparent difficulty presented by the so-called challenge of modernity which seems to require the elimination of mythic symbolic language as an intelligible mode of communication Mythic symbolic language is sometimes eliminated because in a world molded by abstract conceptualizations of science such a language is thought to be unintelligible The claim is that its primitive explanations have been transcended by our modernity Others believe that the problem of mythic symbolic language is the problem of the myth If the mythic forms of language could be eliminated the truth of such language could be preserved through its translation into an intelligible mode of discourse The problematic is heightened further by the relation of considerations of language to philosophical anthropology Any consideration of language involves a related view of the nature of man
