## Toils Of Scepticism:

**The Toils of Scepticism** Jonathan Barnes,1990      *Scepticism in the History of Philosophy* R.H. Popkin,2013-03-09  
Scepticism in the History of Philosophy is a dialogue between leading Latin American and North American scholars concerned with the history of scepticism from ancient times to present day philosophy The volume contains interesting discussions by a wide range of philosophers and historians of philosophy The book should be of great interest to many philosophers who are interested in scepticism It is unique in presenting in English the work of philosophers from Mexico Brazil Argentina and Chile philosophers not well known to the English speaking world      Skepticism G. Anthony Bruno,A.C. Rutherford,2017-12-14 Skepticism is one of the most enduring and profound of philosophical problems With its roots in Plato and the Sceptics to Descartes Hume Kant and Wittgenstein skepticism presents a challenge that every philosopher must reckon with In this outstanding collection philosophers engage with skepticism in five clear sections the philosophical history of skepticism in Greek Cartesian and Kantian thought the nature and limits of certainty the possibility of knowledge and related problems such as perception and the debates between objective knowledge and constructivism the transcendental method as a response to skepticism and the challenge of naturalism overcoming the skeptical challenge Skepticism Historical and Contemporary Inquiries is essential reading for students and scholars in epistemology and the history of philosophy and will also be of interest to those in related disciplines such as religion and sociology      **Judah Halevi's Fideistic Scepticism in the Kuzari** Ehud Krinis,2020-07-06 As scepticism has rarely been studied in the context of the Arabic culture and its Judeo Arabic sub culture it is small wonder that sceptical motifs of Judah Halevi s classic theological The Kuzari written ca 1140 received very little scholarly attention so far Thus the present study seeks to shed light on Halevi s wrestling with the dogmatic rationalistic trends of his period from an angle of this much less studied perspective As a by product this study is a contribution to the mainly uncultivated field of traces of scepticism in the Arabic culture      *Thomas Reid and the Defence of Duty* James Foster,2024-03-05 Is morality a subjective matter dependent on our desires and interests or are there objective moral truths And if the latter can we explain the objectivity of morality without appeal to metaphysics a robust teleology or divine command This book argues that we find just such an account of moral objectivity in Thomas Reid s defence of duty To make this case this book provides an explanation of Reid s way of philosophy and his reasons for rejecting moral subjectivism presents Reid s account of the concept perception and motivational force of duty and responds to contemporary challenges of moral subjectivism and moral pessimism from the perspective of his moral philosophy Further this book argues that if Reid is correct then there is an urgent need to reform current pedagogical practice and return to the teaching of practical ethics      *Sextus Empiricus Against the Arithmeticians* Lorenzo Corti,2023-12-21 Arithmetic deals with numbers but what is the nature of their existence of their parts and of their relationship with countable items These questions nourished a lively debate between the Platonic Pythagorean tradition trying to answer them and the Pyrrhonian

tradition trying to show that these answers were unsatisfactory The debate lies at the heart of Sextus Empiricus Against the Arithmeticians The present book aims at facing the remarkable historical and philosophical questions raised by Sextus treatise by offering a new translation of it and the first dedicated commentary to it **Oxford Studies in Ancient Philosophy** David Sedley,2006-05-04 Oxford Studies in Ancient Philosophy is a volume of original articles on all aspects of ancient philosophy The articles may be of substantial length and include critical notices of major books OSAP is published twice yearly in both hardback and paperback unique value as a collection of outstanding contributions in the area of ancient philosophy Sara Rubinelli Bryn Mawr Classical Review Methodist Magazine ,1893 **Mind** ,1992 Includes papers of the Aristotelian Society 1896 1900 Canadian Philosophical Reviews ,1992 **World Philosophers and Their Works** John K. Popkin,Jose R. Maia Neto,2007-02 This anthology contains the principal texts of the skeptical tradition from its origins in antiquity to contemporary philosophy Selections include the writings of both well known and lesser known but influential philosophers of the Western tradition who either advanced skeptical views or dealt with skeptical issues for other philosophical or religious purposes An introduction on the origins kinds and significance of philosophical skepticism puts the various readings in the context of the history of Western philosophy The editors have also added brief discussions of each philosopher and text included in the anthology plus a selected bibliography which lists the main secondary literature on ancient modern and contemporary skepticism This collection is ideal for introductory philosophy courses and courses on intellectual history or for any reader interested in an influential school of thought which challenges the nature of philosophy itself **A Comparative History of World Philosophy** Ben-Ami Scharfstein,1998-02-27 A Comparative History of World Philosophy presents a personal yet balanced guide through what the author argues to be the three great philosophical traditions Chinese European and Indian The book breaks through the cultural barriers between these traditions proving that despite their considerable differences fundamental resemblances exist in their abstract principles Ben Ami Scharfstein argues that Western students of philosophy will profit considerably if they study Indian and Chinese philosophy from the very beginning along with their own Written with clarity and infused with an engaging narrative voice this book is organized thematically presenting in virtually every chapter characteristic views from each tradition that represent similar positions in the core areas of metaphysics and epistemology At the same time Scharfstein develops each tradition historically as the chapters unfold He presents a great variety of philosophical positions fairly avoiding the relativism and ethnocentrism that could easily plague a comparative presentation of Western and non Western philosophies The Philosophical Review Jacob Gould Schurman,James Edwin Creighton,Frank Thilly,Gustavus
