literature such as story papers chapbooks broadsides serial books pulp magazines comic books and today's paperback books. The author shows how these works reveal much about early American life and thought and how they reflect cultural nationalism through their ideological teachings in personal morality and ethics humanitarian reform and political thought. Overall this book is a thoughtful consideration of the dime novel's contribution to the genre of children's literature. Eight appendices provide a wealth of information offering an annotated bibliography of dime novels and listing series books story paper periodicals characters authors and their pseudonyms and more. A reference section index and illustrations are all included.

The *Cruise of the Dazzler* is an early novel by Jack London set in his home city of San Francisco. It is considered a boy's adventure novel. In the novel Joe Bronson dissatisfied with his dull life at school runs away and joins the crew of a sloop he sees in San Francisco Bay. He finds the captain is involved in criminal activities. The nautical activities on board a sailing boat are authentically described and there are convincing descriptions of boats enduring stormy weather at sea.
