Tread Lightly in Different Cultures Teresa F. Dean, 2002 This broad view of the world documents the author's experiences as a lighter skinned American woman with racism in the US and later throughout the world As the author travels in and out of many lands patterns of racism emerge and solutions seem evasive This book takes us on the author's journey across a complex and multicolored planet It also chronicles her life's work and records in detail the important lessons in international women's reproductive health that she learned while working in other countries and cultures Individual stories about the lives of women in developing countries are told by the women themselves and by the author These are stories of the neglect of women's health care needs and the illness and death that result Most neglected are the darker skinned women in developing countries The author's experience in numerous developing countries documents racism by lighter skinned people an increased awareness of the neglect of women's health in developing countries and the need to continue to address the challenges of population and environmental issues The American public and US government leaders have not been adequately informed about or credited with the effective work in international women's health that Johns Hopkins University and other international agencies have provided through support from the United States Agency for International Development This book seeks to bring this valuable work to light *Bonsai Across Cultures* Barrett

**Jungian Analysts Working Across Cultures** Catherine Crowther, Jan Wiener, 2021-05-31 Jungian Analysts Working Across Cultures From Tradition to Innovation gives a fascinating account of the wide variety of experiences of Jungian analysts working in different cultures across the world They describe and reflect on experiences of both offering and receiving training within these cross cultural partnerships This is a book not only about training but is also an enlightening cultural commentary for our times The powerful bi directionality of cultural influence and discovery is apparent in different ways in every chapter prompting a re appraisal of concepts essential to the core values of Jungian practice which show an outdated adherence to culture bound attitudes The publication of this book is a timely reminder that when Jungian analysis as we know it is floundering in some Western countries new projects in countries seeking to develop an analytic culture give hope for sustaining our professional practice

*Have I Got Dirt For You* Dominique Darmon, 2025-10-01 Even though office gossip is generally frowned upon many studies show that gossip in organizations is not only inevitable but can even be a positive communication tool However by gossiping in the wrong way employees can easily lose the trust of their colleagues and be perceived negatively very quickly Research shows that people who claim to never gossip tend to be considered as socially inept but those that are constantly gabbing at the coffee machine are quickly seen as untrustworthy There is an optimal amount of time one should gossip somewhere in the middle which we call the sweet spot of gossip However it is not only the amount of time one spends gossiping that will make or break an employee or manager Other factors such as credibility what we gossip about whom we gossip with culture and place all play an equally crucial role in the art of gossiping successfully at work Finding the right balance for all of these factors is of the essence Winner of a Silver Medal from the Axiom Business Book Awards shortlisted by the Order of Organization Advisors Ooa

[The Hidden Spirituality of Men](#) Matthew Fox, 2010-09-24 It is no secret that men are in trouble today From war to ecological collapse most of the world's critical problems stem from a distorted masculinity out of control Yet our culture rewards the very dysfunctions responsible for those problems To Matthew Fox our crucial task is to open our minds to a deeper understanding of the healthy masculine than we receive from our media culture and religions Popular religion forces the punitive imagery of fundamentalism on us pushing most men away from their natural yearning for spirituality and toward intolerance and domination Meanwhile many men particularly young men are looking for images of healthy masculinity to emulate and finding nothing To awaken what Fox calls the sacred masculine he unearths ten metaphors or archetypes ranging from the Green Man an ancient pagan symbol of our fundamental relationship with nature to the Grandfatherly Heart to the Spiritual Warrior He explores archetypes of sacred marriage showing how partnership becomes the ultimate expression of healthy masculinity By stirring our natural yearning for healthy spirituality Fox argues these timeless archetypes can inspire men to pursue their higher calling to reinvent the world
