Weaving Ourselves into the Land Thomas Parkhill, 1997-01-01 Examines how both negative and positive stereotypes of the Indian have influenced the study of Native American religions

The Beauty of the Primitive Andrei A. Znamenski, 2007-07-16 For the past forty years shamanism has drawn increasing attention among the general public and academics There is an enormous literature on shamanism but no one has tried to understand why and how Western intellectual and popular culture became so fascinated with the topic Behind fictional and non fictional works on shamanism Andrei A Znamenski uncovers an exciting story that mirrors changing Western attitudes toward the primitive The Beauty of the Primitive explores how shamanism an obscure word introduced by the eighteenth century German explorers of Siberia entered Western humanities and social sciences and has now become a powerful idiom used by nature and pagan communities to situate their spiritual quests and anti modernity sentiments The major characters of The Beauty of the Primitive are past and present Western scholars writers explorers and spiritual seekers with a variety of views on shamanism Moving from Enlightenment and Romantic writers and Russian exile ethnographers to the anthropology of Franz Boas to Mircea Eliade and Carlos Castaneda Znamenski details how the shamanism idiom was gradually transplanted from Siberia to the Native American scene and beyond He also looks into the circumstances that prompted scholars and writers at first to marginalize shamanism as a mental disorder and then to recast it as high spiritual wisdom in the 1960s and the 1970s Linking the growing interest in shamanism to the rise of anti modernism in Western culture and intellectual life Znamenski examines the role that anthropology psychology environmentalism and Native Americana have played in the emergence of neo shamanism He discusses the sources that inspire Western neo shamans and seeks to explain why lately many of these spiritual seekers have increasingly moved away from non Western tradition to European folklore A work of intellectual discovery The Beauty of the Primitive shows how scholars writers and spiritual seekers shape their writings and experiences to suit contemporary cultural ideological and spiritual needs With its interdisciplinary approach and engaging style it promises to be the definitive account of this neglected strand of intellectual history

The Solidarity of Kin Kenneth M. Morrison, 2012-02-01 Arguing that Native Americans religious life and history have been misinterpreted author Kenneth M Morrison reconstructs the Eastern Algonkians world views and demonstrates the indigenous modes of rationality that shaped not only their encounter with the French but also their self directed process of religious change In reassessing controversial anthropological historical and ethnohistorical scholarship Morrison develops interpretive strategies that are more responsive to the religious world views of the Eastern Algonkian peoples He concludes that the Eastern Algonkians did not convert to Catholicism but rather applied traditional knowledge and values to achieve a pragmatic and critical sense of Christianity and to preserve and extend kinship solidarity into the future The result was a remarkable intersection of Eastern Algonkian and missionary cosmologies

Religious Studies, Theology, and the University Linell E. Cady, Delwin Brown, 2002-10-10 This

collection explores the highly contested relationship of religious studies and theology and the place of each if any in secular institutions of higher education The founding narrative of religious studies with its sharp distinction between teaching religion and teaching about religion grows less compelling in the face of globalization and the erosion of modernism These essays take up the challenge of thinking through the identity and borders of religious studies and theology for our time Reflecting a broad range of positions the authors explore the religious secular conceptual landscape that has dominated the modern West and in the process address the revision of the academic study of religion and theology now underway
