David Marx, 2025-11-18 An NPR Most Anticipated Book of Fall 2025 A revealing exploration of a quarter century of cultural stagnation examining the commercial and technological forces that have come to dominate contemporary culture from music and fashion to art film TV and beyond Over the past twenty five years pop culture has suffered from a perplexing lack of reinvention We've entered a cultural blank space an era when reboots rehashes and fads flourish while bold artistic experimentation struggles to gain recognition Why is risk no longer rewarded and how did playing it safe become the formula for success Acclaimed cultural historian W David Marx sets out to uncover the answers In this ambitious cultural history Marx guides us through the blur of the twenty first century so far from the Obama era to the rise of K pop from Paris Hilton to the Marvel cinematic universe from Beyonc and Taylor Swift to Beyonc and Taylor Swift whose enduring influence highlights both their adaptability and the broader shifts in pop culture Combining sociological economic and political insights with a deep dive into art street culture fashion and technology Blank Space dissects the rise of profit driven formulaic trends and the shifting cultural norms that often prioritize going viral over innovation He reveals how backlash against indie snobbery and nineties counterculture gave rise to a counter counterculture one marked by antiliberal sentiment the celebration of business heroes and the increasing influence of industry plants and the elite class In a world of crypto bros nepo babies and AI driven art Marx offers readers a much needed dose of clarity and context Vibrantly narrated and sharply argued Blank Space is an essential guide for anyone looking to understand the chaos of the twenty first century the trends tastemakers and icons who shaped it and how we might push our culture forward over the next quarter century through renewed emphasis on creativity community and the values that transcend mere profit **In on the Joke: The Ethics of Humor and Comedy** Thomas Wilk, Steven Gimbel, 2024-01-29 Who is morally permitted to tell jokes about Jews Poles Women Only those in the group Only those who would be punching up Anyone since they are just jokes All of the standard approaches are too broad or too narrow In on the

Joke provides a more sophisticated approach according to which each person possesses joke capital that can serve as comic insurance covering certain jokes in certain contexts When Bob tells a joke about Jews we can never know exactly what Bob is intending since we cannot see inside Bob's mind But we could reasonably infer if we knew Bob himself was Jewish if he worked tirelessly for Jewish causes or was a card carrying Neo Nazi Each would affect his joke capital and in certain circumstances we would have a moral standing to demand to see his ledger to see how much joke capital he had with respect to Jews The permissibility of that joke depends upon four factors the joke the teller of the joke the audience and the setting The view developed in *In on the Joke* is the only view that clearly explains how each of these components work together in an integrated effective ethic of humor

The Ah-Ha Moment Martin Cohen, 2024-09-13 Jokes are intellectual can openers offering surprisingly powerful insights into not only how our minds work but into how the world around us works too Why Well when you think about it a good joke requires demands a very special kind of deep thinking a kind of world upturning no holds barred problem solving It's the same skill that produces the great insights of art and commerce the insight that sees solutions and creates opportunities And yes such skills can be approached through exercises and study but there's no good reason to think such sensible methods work any better than having a sense of humour So why not at least for a moment throw all conventional thinking to the wind and start re-examining the world through the very special very beautiful prism of jokes and riddles With wit and irony Martin Cohen explains the basic concepts of philosophy and incidentally introduces the most famous thinkers in history *Der Spiegel*

The Third Awakening Eric Kaufmann,2024-05-14 We in the West are in the third wave of cultural left ideological enthusiasm Each Awakening has crested fallen a little consolidated then surged again to reach a higher level The cumulative result is an elite creed which has produced a crime wave a worsening education system chaos at the border and social division Fired by a cultural socialism that puts equal results and emotional protection for minorities at the center of their moral universe today s young people are twice as intolerant of conservative speech as older generations These young people will be the median voters and employees of tomorrow leading and controlling the country Woke cultural socialism is not the classical liberalism of the American Constitution but a modern majorities bad minorities good Left liberalism It is powered by a set of liberal emotional attachments rather than liberal principles These underpin a moral panic about whites and males combined with a starry eyed patronizing approach to minorities Today s woke extremism is not a repudiation of liberalism but a perverse extension of it Our only way out is to use elected constitutional government power to break the grip of wokeness in our institutions and schools steering them toward neutrality and classical liberalism To do so the conservative and moderate majority must place culture front and center and spare no effort to win the battle of ideas Nothing less than the future of our civilization depends on it
