The Tycoons Charles R. Morris,2006-10-03 Makes a reader feel like a time traveler plopped down among men who were by turns vicious and visionary The Christian Science Monitor The modern American economy was the creation of four men Andrew Carnegie John D Rockefeller Jay Gould and J P Morgan They were the giants of the Gilded Age a moment of riotous growth that established America as the richest most inventive and most productive country on the planet Acclaimed author Charles R Morris vividly brings the men and their times to life The ruthlessly competitive Carnegie the imperial Rockefeller and the provocateur Gould were obsessed with progress experiment and speed They were balanced by Morgan the gentleman businessman who fought instead for a global trust in American business Through their antagonism and their verve they built an industrial behemoth and a country of middle class consumers The Tycoons tells the incredible story of how these four determined men wrenched the economy into the modern age inventing a nation of full economic participation that could not have been imagined only a few decades earlier
