*Living Torches in the Soviet Bloc* Petr Blažek, 2025-12-01 *Living Torches in the Soviet Bloc* presents the lives of those who chose self immolation as a radical form of protest against the political oppression of Communist regimes in the Soviet Bloc between 1966-1989. While more than fifty such cases were identified during the relevant period, Petr Blažek focuses here on the twenty-one cases in which at least partial political motivation is apparent from historical sources. Many of the cases of the living torches were a radical response to the August 1968 occupation of Czechoslovakia by the armies of five Warsaw Pact member states and the suppression of the Prague Spring. After January 1969, the self-immolation of Jan Palach evoked a large wave of followers not only in Czechoslovakia but also abroad and greatly influenced other cases of living torches which continued to appear in the Soviet Bloc until the end of the 1980s. Although the conditions in the Soviet Bloc states were sometimes fundamentally different, these cases of self-immolation across states share a common disapproval of the totalitarian form of rule. They were often drastic responses from members of occupied nations, most of whom were Czechs, Lithuanians, Ukrainians, and Poles who rejected the enforced Communist regime and Soviet military presence. Some decided to sacrifice their lives to wake others from indifference and resignation. Even several decades later, their shocking acts not only provoke but also lead us to reflect on fundamental questions of human life.

**A Life Dedicated to the Republic**  
Josette Baer, 2014-03-01 Josette Baer retraces the eventful life of Slovak politician Vavro Robr, the principal figure in the implementation of Czechoslovak democracy in Slovakia. From his student days and fight for Slovak civil rights in Upper Hungary to his active resistance to German fascism, Robr shaped Czechoslovakia's turbulent history in the first half of the twentieth century. Baer's comprehensive biography makes archived materials available to English-speaking audiences for the first time and offers unique insight into Czechoslovakia's underresearched political history.

**The Encyclopedia of Jewish Life Before and During the Holocaust: A-J** Shmuel Spector, Geoffrey Wigoder, 2001 This three-volume encyclopedia, abridged from a 30-volume set in Hebrew and with a foreword by Elie Wiesel, chronicles Jewish life before and during the Holocaust. Arranged alphabetically by town, thousands of entries explore centuries of Jewish life. Some entries, particularly for large cities, provide information on Jewish residents as early as the Middle Ages and discuss the fate of Jews during the Black Death, persecutions, 1348-1349, and various pogroms from the 17th to 20th centuries. Each entry provides information on the town's Jewish inhabitants on the eve of German occupation, gives the dates of Jewish roundups and mass executions, and estimates how many Jews from that community survived the war. Includes more than 600 black and white photographs.

*Letters from Prague* Eleanor Wheeler, 2022-11-07 Eleanor M. Wheeler, a correspondent for the Religious News Service, wrote letters from Prague to her friends in the USA from 1947 to 1957. Her husband, George Shaw Wheeler, was a colonel in the US Army and the chief of the de-Nazification section of the Manpower Division of the Office of the Military Government (OMGUS). While in Germany in 1946, Wheeler's contract was not renewed, mainly due to suspicions that he was disloyal to the

US government and had connections to the communist movement Afterwards the entire family moved to Prague where in 1951 they applied for political asylum The correspondence depicts ten years of life in Czechoslovakia from the rise of communism through high Stalinism to the de Stalinization of the country from the perspective of pro Communist minded Americans Thematically the correspondence covers a wide range of political cultural and social topics including the Cold War the Korean War the role of Christians in mediating dialogue between East and West McCarthyism and topics focused on the internal politics of Czechoslovakia *Czech and Slovak Culture in International and Global Context* Miloslav Rechcigl,2008

**American Men and Women in Medicine, Applied Sciences and Engineering with Roots in Czechoslovakia**

Miloslav Rechcigl Jr.,2021-02-17 No comprehensive study has been undertaken about the American learned men and women with Czechoslovak roots The aim of this work is to correct this glaring deficiency with the focus on men and women in medicine applied sciences and engineering It covers immigration from the period of mass migration and beyond irrespective whether they were born in their European ancestral homes or whether they have descended from them This compendium clearly demonstrates the Czech and Slovak immigrants including Bohemian Jews have brought to the New World in these areas their talents their ingenuity the technical skills their scientific knowhow as well as their humanistic and spiritual upbringing reflecting upon the richness of their culture and traditions developed throughout centuries in their ancestral home This accounts for their remarkable success and achievements of these settlers in the New World transcending through their descendants as this publication demonstrates The monograph has been organized into sections by subject areas i e Medicine Allied Health Sciences and Social Services Agricultural and Food Science Earth and Environmental Sciences and Engineering Each individual entry is usually accompanied with literature and additional biographical sources for readers who wish to pursue a deeper study The selection of individuals has been strictly based on geographical vantage without regards to their native language or ethnical background Some of the entries may surprise you because their Czech or Slovak ancestry has not been generally known What is conspicuous is a large percentage of listed individuals being Jewish which is a reflection of high level of education and intellect of Bohemian Jews A prodigious number of accomplished women in this study is also astounding considering that in the 19th century they rarely had careers and most professions refused entry to them
