## **Weakness Of Will:**

The Weakness of the Will Justin Gosling, 2002-11-01 First Published in 2004 Since before Plato philosophers have puzzled over why it is that people will sometimes deliberately take the worst course of action The book begins by examining the various theories put forward by Plato Aristotle the Stoics and a selection of medieval philosophers and discusses how and why later philosophers avoid the problem In the second section Justin Gosling argues that familiar ways of viewing the problem mislocate the apparent irrationality of weakness The author then moves on to the traditional cases of being overcome by passion to argue for a further sense in which weakness may be thought irrational and to open up an unusually wide field of examples for consideration

The Possibility of Weakness of Will Robert Dunn, 1987-01-01 The book reveals a rare blend of virtues a mastery of the literature a lucidity of mind a rigor of argument and a robust sense of psychological realism It soars yet rarely loses sight of the terrain *Bela Szabados Canadian Philosophical Review*

*Weakness of Will in Renaissance and Reformation Thought* Risto Saarinen, 2011-06-30 The question of why people act against their better judgment has always been prominent in philosophy Risto Saarinen presents the first study of ideas about weakness of the will between 1350 and 1650 He shows how the understanding of human conduct and free will changed in this formative period between medieval times and modernity

**Weakness of Will and Practical Irrationality** Sarah Stroud, Christine Tappolet, 2003-09-04 Among the many practical failures that threaten us weakness of will or akrasia is often considered to be a paradigm of irrationality The eleven new essays in this collection written by an excellent international team of philosophers some well established some younger scholars give a rich overview of the current debate over weakness of will and practical irrationality more generally Issues covered include classical questions such as the distinction between weakness and compulsion the connection between evaluative judgement and motivation the role of emotions in akrasia rational agency and the existence of the will The also include new topics such as group akrasia strength of will the nature of correct choice the structure of decision theory the temporality of prudential reasons and emotional rationality Because these questions cut across philosophy of mind and ethics the collection will be essential reading for scholars postgraduates and upper level undergraduates in both these fields

**A Philosophical Reader on Moral Weakness** Kirk Fitzpatrick, 2009-01-01 This text functions as a collection of primary source materials for researches and students of moral weakness It is tailor made for upper division courses on Moral Weakness Praise and Blame Action Explanation and other such topics It can function as the text for Ethics Moral Issues Moral Decision and other such topics It can also function as a text for an Introduction to Philosophy when augmented with other texts In some contexts the text can stand alone but it functions especially well when augmented by secondary sources By strategically pairing secondary texts with the primary texts a professor can focus on different epochs or selections as personal taste directs From internet site Linus Publications

Weakness of Will from Plato to the Present (Studies in Philosophy and the History of Philosophy, Volume 49) Tobias Hoffmann, 2008 In thirteen original

essays eminent scholars of the history of philosophy and of contemporary philosophy examine weakness of will or incontinence the phenomenon of acting contrary to one's better judgment      **Backsliding** Alfred R. Mele, 2012-04-20 In this book the author incorporates research in social and developmental psychology to understand the human behavior of weakness of will or akrasia      Freedom and the Human Person Richard Velkley, 2007-12 In the Western tradition freedom and the human person have been at the center of philosophical theological moral and political debates since the origins of this tradition Although contemporary discourse betrays the multiplicity of these roots the necessary historical perspective for evaluating them is almost always lacking even in scholarly studies The terms freedom and person carry such overwhelming force in the modern world that the critical distance required for grasping what is at stake in using them is extremely hard to gain The present collection seeks to contribute toward finding that distance by making the tradition of thought more a living reality and not an object of arid analyses Unlike most collections the present one transcends disciplinary boundaries as it acknowledges the interconnectedness of philosophical theological and political arguments on these themes The contributors are prominent authorities in particular historical periods or in figures in Western thought and they treat approaches to freedom and the human person in ancient Greek biblical medieval and modern sources although the major emphasis is on the thought of leading philosophers Plato Boethius Aquinas Ockham Machiavelli Locke Kant Hegel Nietzsche Husserl et al Their essays bring forward profound contrasts in how freedom and personhood have been grounded and characterized notably the contrasts between groundings in natural reason and in supernatural revelation between premodern teleological thinking and modern thinking on self sovereignty without teleology and within modern thought between positions favoring individual autonomy and others securing freedom and its exercise in communal or traditional life Several of the papers shed light on the relations of freedom and personhood to the human powers of speech thought and judgment The contributors to the volume are Seth Benardete Michael Gillespie Leon Kass Robert B Pippin Robert Rethy John M Rist Brian J Shanley O P Susan Meld Shell Robert Sokolowski Eleonore Stump Nathan Tarcov and Michael P Zuckert with Jesse Covington and James Thompson Richard Velkley former professor of philosophy at the Catholic University of America is Celia Scott Weatherhead Professor of Philosophy at Tulane University He is author of *Freedom and the End of Reason On the Moral Foundation of Kant's Critical Philosophy and Being after Rousseau Philosophy and Culture in Question*      Free Will and Action Explanation Scott Robert Sehon, 2016 Do we have free will and moral responsibility Is free will compatible with determinism Scott Sehon addresses these key questions by focusing on an underlying issue the nature of action explanation He proposes a non causal account of action and agency according to which reason explanation of human behavior is teleological rather than causal

*Encyclopedia of Medieval Philosophy* Henrik Lagerlund, 2010-12-07 This is the first reference ever devoted to medieval philosophy It covers all areas of the field from 500 1500 including philosophers philosophies key terms and concepts It also provides analyses of particular theories plus cultural and social contexts      *Weakness of Will* Geoffrey Mortimore, 1971

*Addiction and Weakness of Will* Lubomira Radoilska, 2013-11-28 The way in which society views addiction underlies how it treats understands blames or even punishes those with addictive behaviours This thought provoking new book presents an original philosophical analysis bringing together addiction and weakness of will Within the book the author develops an integrated account of these two phenomena rooted in a classical conception of akrasia as valuing without intending and at the same time intending without valuing This fascinating and suggestive account addresses a number of paradoxes faced by current thinking about addiction and weakness of will in particular the significance of control and intention for responsible action *Addiction and Weakness of Will* makes an original contribution to central issues in moral psychology and philosophy of action including the relationship between responsibility and intentional agency and the nature and scope of moral appraisal The book is valuable for philosophers ethicists and psychiatrists with an interest in philosophy *The Complete Works of Friedrich Nietzsche: The will to power*, tr. by A.M. Ludovici. 1914-13 Friedrich Wilhelm Nietzsche, 1914 **Crucible of Reason** Keith D. Wyma, 2004-11-23 Weakness of will seems to be an inherent part of the human condition We know what we ought to do and how often we knowingly willingly fall short in actual practice How can this be explained and what challenges does it present to systematic explanations of intentional actions In this clear incisive and well written inquiry philosopher Keith Wyma subjects the thought of three prominent intentional theorists R M Hare Donald Davidson and Thomas Aquinas to the crucible of reason to see whether and how they can account for weakness of will Wyma is careful to clarify which actions count as incontinent or the result of weakness of will they must be performed intentionally even as they are judged as something that ought not to be done His in depth study of Hare Davidson and Aquinas on this important issue is a major contribution to understanding practical rationality and intentional action **Weakness of the Will** Justin Cyril Bertrand Gosling, 1990 **Weakness of Will and Delay Discounting** Nora Heinzelmann, 2023 Both philosophy and the behavioural sciences have studied weakness of will and our propensity to discount the value of delayed outcomes Nora Heinzelmann now brings the disciplines together making the ideas of each accessible to the other It reveals that delay discounting is neither necessary nor sufficient for weakness of will **Weakness of Will** William Charlton, 1988-01-01 *Teologisk tidsskrift*, 1918 "I Ought To, But--" Roger Straughan, 1982 *Passion and Criminality* Louis Proal, 1905
