Weber and Islam V 7 Bryan S. Turner,2014-03-10 This volume contributes to the modern study of Islam and provides a full length review of Weber s sociology of Islam It examines modern scholarship which questions the relevance of Weber to the contemporary role of Islam in global politics It is useful for students of the sociology of religion **Max Weber on Economy and Society (Routledge Revivals)** Robert Holton,Bryan Turner,2010-10-22 First published in 1989 this re issue concerns itself with the relevance of Max Weber s sociology for the understanding of modern times The book outlines key tenets of Weber s sociology and points to the valuable legacy of Weber s thought in contemporary intellectual debate particularly with regard to secularization and rationalization of global cultures the crisis of Marxism the rise of the New Right and the emergence of post modernism This book offers an authoritative and insightful study which brings to light not only the contemporary relevance of Weber s social theory but also offering a broad perspective for the analysis of social questions **Islam and Modernity** Abdessalem, Rafik,2019-07-18 In this compelling book Rafik Abdessalem unpacks two major lines of thought Firstly he examines why many Westerners dismiss Islam s vast intellectual social theological and cultural heritage as flawed violent rigid and fanatical despite knowing virtually nothing about it He usefully traces the genesis of this attitude focusing on how scholars such as Weber Habermas and others have helped to consolidate the West s view of itself as civilised superior developed and progressive and how the demonisation of Islam acts as a necessary foil for these notions Secondly he explains that Islam is subject to a variety of interpretive choices and schools of thought ranging from legalistic fundamentalism through rigid rationalism to spiritual Sufism By treating Islam secularity and modernity as distinct and separate rather than as interconnected and overlapping Abdessalem makes no attempt to reconcile Islam with modernity or secularity nor does he place one in opposition to the other Instead he looks at the interconnections between these broad and complex subjects Abdessalem s analysis is useful in encouraging us to rethink both modernity and Islam and their relationship with each other In this rethinking lies the potential for a better understanding of the geopolitics of what is

often called the Muslim world including the MENA region Max Weber: From History to Modernity Profesor Bryan S Turner,2002-09-11 This wide ranging and assured book written by one of the leading Weber scholars in the English speaking world shows us the many sides of Max Weber The book provides an authoritative guide to the current burning issues in social theory religion rationalization the body modernization and capitalism It will be essential reading for anyone interested in Weber s claim that the aim of sociology must be to explain what is distinctive about the times in which we live **Max Weber and the Sociology of Culture** Ralph Schroeder,1992 Shows interplay between culture in analysis of *The Sociology of Islam* Bryan S. Turner,Kamaludeen Mohamed Nasir,2016-03-03 Taking a thematic approach Bryan S Turner draws together his writings which explore the relationship between Islam and the ideas of Western social thinkers Turner engages with the broad categories of capitalism orientalism modernity gender and citizenship among others as he examines how Muslims adapt to changing times and how Islam has come to be managed by those in power **IKIM Journal of Islam and International Affairs** ,2002 **Studies in the Origins of Early Islamic Culture and Tradition** Michael Cook,2004 In contrast to the gradual formation of the high cultures of most of the world the process by which Islamic civilisation emerged and took on its classical form between the 7th and 9th centuries was unusually sudden The studies collected here are concerned with aspects of this remarkable development Their topics are varied including the emergence of dialectical theology the origins of accounts of Pharaonic history current in medieval Egypt the sources of Muslim dietary law the Islamic background of Karaism and Max Weber s views on Islamic sects Other articles look at early Syrian eschatology and its connections with late antiquity and Byzantium at the relevance of eschatology to debates about the dating of traditions and at the attitudes of the early traditionists to the writing down of tradition The final items examine reports about the textual affiliations of a long lost Koranic codex and discussions of adultery among the baboons of Yemen A recurring theme is the relationship between Early Muslim ideas and those of non Muslim cultures sometimes very ancient ones **The Oxford Handbook of the Sociology of the Middle East** Armando Salvatore,Sārī Ḥanafī,Kieko Obuse,2022 The Oxford Handbook of the Sociology of the Middle East integrates the study of the social dynamics in the Middle East within history culture and politics The volume transcends a purely regional perspective to investigate the global nature of these dynamics and their impact on the life of people in the region It provides a comprehensive perspective in connecting the vexed state society relations in the region with movements of transformation and the affirmation of rights and creativity in the public arenas *Islam and the Political Discourse of Modernity* Armando Salvatore,1997 Reconstructing the development of the term political Islam and looking in detail at the current transcultural space between Islam and the West this book offers valuable insights for those interested in cross cultural relations and in Islam s changing political roles **Islam and Muslim History in South Asia** Francis Robinson,2000 These essays address key themes in the history of the Muslims of South Asia conversion to Islam the impact of print the emergence of Islam as a worldly religion the process of secularization the
