Engagement Design Nelson Zagalo,2020-03-17 Interactive media designers have been discussing modes to optimize interaction design beyond mere usability With the arrival of Emotional Design followed by the success of the User Experience

UX approaches the discussion continued and augmented Experience has become a complex buzzword which is more about the subject's experience than the product and this is why it's difficult or even impossible to define it in a concise manner. We propose to move the discussion from Experience towards Engagement to emphasize the design of the relationship between artefacts, contexts and users. Engagement asks for a more concrete type of experience with specific needs, motives, skills and competences which can be more clearly worked into the design of artefacts. Engagement also differs from other concepts e.g. fun, enjoyment, happiness or well-being and is open enough to grant freedom to designers in creating their personal world views. To push this new approach we offer in this book a full model for the design of engagement in interactive media still believing it can be applied beyond that. The model is arranged around what we call the three engagement streams: Progression, Expression and Relation.

ROBLOX is an online virtual playground and workshop where kids of all ages can safely interact, create, have fun and learn. It's unique in that practically everything on ROBLOX is designed and constructed by members of the community. ROBLOX is designed for 8 to 18-year-olds but it is open to people of all ages. Each player starts by choosing an avatar and giving it an identity. They can then explore ROBLOX interacting with others by chatting, playing games or collaborating on creative projects. Each player is also given their own piece of undeveloped real estate along with a virtual toolbox with which to design and build anything be it a navigable skyscraper, a working helicopter, a giant pinball machine, a multiplayer Capture the Flag game or some other yet-to-be-dreamed-up creation. There is no cost for this first plot of virtual land. By participating and by building cool stuff, ROBLOX members can earn specialty badges as well as ROBLOX dollars (ROBUX). In turn they can shop the online catalog to purchase avatar clothing and accessories as well as premium building materials, interactive components and working mechanisms.
