The Revolution Script:

The Revolution Script Brian Moore, 1971 On the morning of October 5 1970 James Cross the Senior British Trade Commissioner was kidnapped at gunpoint from his gray stone house in the most fashionable district of Montreal by a group of young revolutionaries of the Front de Liberation du Quebec The four men and a woman who successfully undertook this daring action were inspired by the frustrations and deprivations that are the realities of life for French Canadians the self proclaimed white niggers of America The goal of his FLQ group was to gain attention in the media for their program and as the police continued to search communiques by the kidnappers were published and broadcast including the reading on television of a sensational FLQ manifesto Then as the cat and mouse game went on the stunning news came of the kidnapping and a few days later the murder of Pierre Laporte the Labor Minister of Quebec Province by an unrelated terrorist band Prime Minister Pierre Trudeau responded with an unprecedented suspension of civil liberties and mass arrests but the end of the crisis the release of Cross and the departure of his kidnappers for Cuba was achieved by negotiation

Scripting Revolution Keith Michael Baker, Dan Edelstein, 2015-10-07 The Arab Spring was heralded and publicly embraced by foreign leaders of many countries that define themselves by their own historic revolutions The contributors to this volume examine the legitimacy of these comparisons by exploring whether or not all modern revolutions follow a pattern or script Traditionally historians have studied revolutions as distinct and separate events Drawing on close familiarity with many different cultures languages and historical transitions this anthology presents the first cohesive historical approach to the comparative study of revolutions This volume argues that the American and French Revolutions provided the genesis of the revolutionary script that was rewritten by Marx which was revised by Lenin and the Bolshevik Revolution which was revised again by Mao and the Chinese Communist Revolution Later revolutions in Cuba and Iran improvised further This script is once again on display in the capitals of the Middle East and North Africa and it will serve as the model for future revolutionary movements

The Revolution to Come Dan Edelstein, 2025-04-15 How an event once considered the greatest of all political dangers came to be seen as a solution to all social problems Political thinkers from Plato to John Adams saw revolutions as a grave threat to society and advocated for a constitution that prevented them by balancing social interests and forms of government The Revolution to Come traces how evolving conceptions of history ushered in a faith in the power of revolution to create more just and reasonable societies Taking readers from Greek antiquity to Leninist Russia Dan Edelstein describes how classical philosophers viewed history as chaotic and directionless and sought to keep historical change especially revolutions at bay This conception prevailed until the eighteenth century when Enlightenment thinkers

conceived of history as a form of progress and of revolution as its catalyst These ideas were put to the test during the French Revolution and came to define revolutions well into the twentieth century Edelstein demonstrates how the coming of the revolution leaves societies divided over its goals giving rise to new forms of violence in which rivals are targeted as counterrevolutionaries A panoramic work of intellectual history The Revolution to Come challenges us to reflect on the aims and consequences of revolution and to balance the value of stability over the hope for change in our own moment of fear and upheaval
