Garfield, 2011-08-26 This book publishes for the first time in decades and in many cases for the first time in a readily accessible edition English language philosophical literature written in India during the period of British rule Bhushan s and Garfield s own essays on the work of this period contextualize the philosophical essays collected and connect them to broader intellectual artistic and political movements in India This volume yields a new understanding of cosmopolitan consciousness in a colonial context of the intellectual agency of colonial academic communities and of the roots of cross cultural philosophy as it is practiced today It transforms the canon of global philosophy presenting for the first time a usable collection and a systematic study of Anglophone Indian philosophy Many historians of Indian philosophy see a radical disjuncture between traditional Indian philosophy and contemporary Indian academic philosophy that has abandoned its roots amid globalization This volume provides a corrective to this common view The literature collected and studied in this volume is at the same time Indian and global demonstrating that the colonial Indian philosophical communities were important participants in global dialogues and revealing the roots of contemporary Indian philosophical thought The scholars whose work is published here will be unfamiliar to many contemporary philosophers But the reader will discover that their work is creative exciting and original and introduces distinctive voices into global conversations These were the teachers who trained the best Indian scholars of the post Independence period They engaged creatively both with the classical Indian tradition and with the philosophy of the West forging a new Indian philosophical idiom to which contemporary Indian and global philosophy are indebted *The Meaning of Being Illuminati* Nicolas Laos, 2019-05-23 This book articulates a new research program called Ur Illuminism which consists in an integrated and systematic study of humanity s quest for illumination namely for the highest and noblest possible mode of being Thus it takes on the challenge of revising widely accepted ways of understanding and interpreting the ontological underpinnings of civilization and the ontological potential of humanity It allows the reader to delve into a creative rediscovery of Platonism medieval Christian mystics and scholars writings and various illuminist systems from the Orphic mystical cult to the European Enlightenment and thence to the eighteenth century Illuminati fraternities and beyond Moreover the book studies major issues in the history of philosophy

politology and esoteric systems such as Hermeticism the Kabbalah alchemy the Rosicrucian movement Freemasonry and the Bavarian Illuminati It maintains that a postmodern rediscovery of premodern metaphysics specifically a postmodern esoteric theocracy as distinct from old sacerdotalism and religious formalism is the best bulwark against oppression and the ontological degradation of humanity as well as the best path to the attainment of that wisdom and spiritual self knowledge which constitute the existential integration and completion of the human being In this context it proposes a peculiar and intellectually fecund synthesis between Tory Anarchism Libertarianism Platonism and Byzantine Hesychasm as they are elucidated here
