syntax

- The way in which words and clauses are ordered and connected so as to form sentences; or the set of grammatical rules governing such word-order. Syntax is a major determinant of literary *style* : while simple English sentences usually have the structure 'subject-verb-object' (e.g. *Jane strangled the cat*), poets often distort this syntax through *inversion* , while prose writers can exploit elaborate *syntactic* structures such as the *periodic sentence* .
