Lovecraftiana: Walpurgisnacht Edition 2017 Rogue Planet Press, **The Unknown Constellations** Harvey Swados, 2013-08-06 When Jack Rodenko shipped out as a sailor during World War II he never imagined that real adventure would be waiting for him at home in New Orleans The Crescent City after the war is at the heart of a rapidly changing America and ex sailor Jack Rodenko is caught up in a strange and shifting milieu as he tends bar at a seedy club called L toile While struggling to build a new life Rodenko becomes involved with a corrupt greedy power broker and falls in love with a striking photographer relationships that will force him to choose between two decidedly different futures First published decades after the author's death in 1972 **The Unknown Constellations** is the first novel by unsung postwar literary hero Harvey Swados Through these pages we can trace the origins of a unique voice and an unerring conscience **"The Space of Words"** Jennifer Miller Hoyer, 2014 Nelly Sachs 1891-1970 has long been regarded as one of the most significant Holocaust poets Her conception of language and words as a landscape has been understood by scholars and critics as an exilic ersatz Heimat for the lost German homeland of a displaced poet This reading however is based entirely on her postwar poems Such an isolated approach to her complex body of work is increasingly historically problematic it is also at odds with Sachs's generally cyclical poetic process In **The Space of Words** Jennifer Hoyer offers the first sustained critical analysis of Sachs's largely unanalyzed prewar poetry and prose as well as the first analysis that examines structural and thematic ties between the prewar works and the Nobel Prize winning postwar poetry Through close readings of both Sachs's prewar and postwar works Hoyer reveals a diasporic rather than exilic conception of the landscape of language a position of constant wandering rather than static longing for return This diasporic poetics promotes the intellectual and linguistic power of the wanderer and opens new insights into Sachs's essential significance as a Holocaust poet and a twentieth century German Jewish writer wary of the link of literary language to geopolitics and the narrative of nations Jennifer M Hoyer is Assistant Professor of German at the University of Arkansas The constellations and how to find them sir William Peck, 1885 **The Broken Bible** John E. Chitty, 2002-04-12 From the dawn of man we have all wondered Who's out there From the inception of life human's have known nothing but Gods and angels that hold the very secrets of life and death Since ancient times these awe inspiring luminous beings have captivated every population on the surface of this planet Now for the first time join author John Chitty as he journeys through an extraordinary odyssey of entangled science and religion where extraterrestrial's and angels become one and the same Discover the remarkable connection between the centuries old UFO phenomenon and angelic beings After thirteen years of intensive research this book is one of the most extensive literary works exposing startling new information about UFOs and Biblical scripture ever compiled For the first time in the annals of mankind the miracles of scripture and future of the human race is revealed This controversial yet provocative revelation will leave you utterly frightened at the alien implications that may be residing right under our very noses If you are intrigued by innovative
