The Great Code:

The Great Code Northrop Frye, 2006-01-01 Considered by many to be Northrop Frye's magnum opus *The Great Code* 1982 reflects a lifetime of thinking about the patterns and meanings of the Bible In this new edition of *The Great Code* Alvin A Lee presents a corrected and fully annotated version of Frye's text as well as a comprehensive introduction to help contextualize this important work and guide readers through its allusive passages Lee's introduction provides a synoptic account of the role of the Bible in Frye's intellectual and spiritual odyssey as well as a description of how *The Great Code* as a book came into existence and an introductory critique of the shape and meaning of the book's argument *The Great Code* is culturally allusive to a high degree It takes much of its inspiration from the Bible itself including a profusion of biblical passages but also from the author's extensive reading of a host of other texts from ancient times until the late twentieth century Lee's extensive annotation illustrates beyond question that Frye's knowledge of the Bible and how it has worked in Western culture was at once profound and visionary This new edition not only re-presents Frye's text in a clear correct and fully annotated form it goes a long way in helping us understand the widespread scholarly and popular reception that met this extraordinary and in some ways revolutionary book and how it can still be richly rewarding for readers *The great code* Northrop Frye, 1983

Great Code Penguin Modern Classics Edition Northrop Frye, 2007-07-31 Canada's world renowned critic and scholar examines the Bible as the single most important influence in the imaginative tradition of Western art and literature **The Great Code** Northrop Frye, 1982 An examination of the influence of the Bible on Western art and literature and on the Western creative imagination in general Frye persuasively presents the Bible as a unique text distinct from all other epics and sacred writings No one has set forth so clearly so subtly or with such cogent energy as Frye the literary aspect of our biblical heritage *New York Times Book Review Indices* **The Taiji Government and the Rise of the Warrior State** Lhamsuren Munkh-Erdene, 2021-10-11 Read *The Taiji Government* and you will discover a bold and original revisionist interpretation of the formation of the Qing imperial constitution Contrary to conventional wisdom which portrays the Qing empire as a Chinese bureaucratic state that colonized Inner Asia this book contends quite the reverse It reveals the Qing as a Warrior State a Manchu Mongolian aristocratic union and a Buddhist caesaropapist monarchy In painstaking detail brushstroke by brushstroke the author urges you to picture how the Mongolian aristocratic government the Inner Asian military oriented numerical divisional system the technique of conquest rule and the Mongolian doctrine of a universal Buddhist empire together created the last of the Inner Asian empires that conquered and ruled what is now China

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a welcome guide to the field Accessible and jargon free the *Encyclopedia of Contemporary Literary Theory* provides lucid concise explanations of myriad approaches to literature that

have arisen over the past forty years. Some 170 scholars from around the world have contributed their expertise to this volume. Their work is organized into three parts. In Part I, forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose. The essays also discuss the uses and limitations of the various schools and the key issues they address. Part II focuses on individual theorists. It provides a more detailed picture of the network of scholars, not always easily pigeonholed into the categories of Part I. This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context. Part III deals with the vocabulary of literary theory. It identifies significant complex terms, places them in context, and explains their origins and use. Accessibility is a key feature of the work. By avoiding jargon, providing mini bibliographies, and cross referencing throughout, Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture.
