Biohacker's Magazine Biohacker's Magazine , In a world with so much information that is continually thrown at us sometimes it s tough to know what to accept as Truth and what to reject as false So many things call for our attention that we can become mentally strained and exhausted by the end of the day Because of this we are susceptible to the coaxing idea of giving up our thinking especially our critical thinking We know we can t think about every little thing and decision that crosses our mind throughout the day so we have many of our thoughts on auto pilot which is fine as this helps us from becoming absolutely drained by the end of our day The problem arises when we let this auto thinking expand beyond the everyday task level of thinking and decision making Out of comfort we can allow ideas and words that flash before us throughout our daily lives to merge into our inner brain s reservoir without first weighing the information against our experiences and own inner knowledge of our understanding of the Truth This is essential when we let others that generate ideas thoughts agendas etc think for ourselves because we simply feel too overloaded with the amount of information we have to continually process that we give up our own free right to ponder something It s quite scary when we think about the ramifications that can come of this especially when the world today shows us that those that don t think for themselves are perfect subjects to a form of modern day slavery to whatever ideas and reality the powers want to build up This is why it s so important to take the time to invest in ourselves from the beginning and make learning reading and

curiosity a habit It takes time but the earlier we begin the more time we save in the long run from having to put great time and attention into each thought that enters our mind and decide whether it fits with our values or not We must be like children constantly questioning the world and using our forged experiences to add to our answers and depth of self knowledge In the same manner we must respectfully study and learn from all those who have gone before us and be open to learning about their ways and perspectives Remember that knowledge is not solely subjective it is also objective and is the understanding of a real concrete thing under the aspect of a grasped meaning We use our intellect to study and think rationally about things which adds to our understanding of the truth about ourselves our community and our world The choices that we make are dependent upon our will whether good or bad which is in turn dependent upon our understanding of the truth Man is the only animal that can say I eat and I know that I eat I am and I know that I am I think and I know that I think To know we must think critically about subjects that truly hold value We must make the most of our intellect and discover new data from our experiments from biohacking to add to our knowledge in the search for the truth that propels all of us humans forward to the beat of Life s constant drum If you look for truth you may find comfort in the end if you look for comfort you will not get either comfort or truth only soft soap and wishful thinking to begin and in the end despair C S Lewis

Don't Stick Your Dick in a Blender Jonathan Roseland,2025-09-09 Women are dangerous Good yet naive men routinely wreck their lives because they stick their dick in a blender having sex with the wrong kinds of women STDs unplanned pregnancies false accusations mental health headaches and divorce make chasing skirts a dangerous game While lesser men retreat from the pursuit of women into the pixel powered pleasure world you have faith that your hunt for a virtuous woman will be fruitful

You can't take a time machine back to a more decent age to find a marriageable woman. You're not ready to give up on your genetic purpose and start banging sex robots, but you're tired of the transient, meaningless flings with mediocre women. You're likely underestimating just how risky sex, a relationship, or marriage is with the modern woman. But you're also underestimating just how rewarding it is to win the commitment of a nice girl, a truly feminine woman, not at war with the natural order and intertwined your essence with hers.

Don't Stick Your Dick in a Blender is an irreverent, politically incorrect exposition of the state of dating in the current year. And a playbook of counter-intuitive approaches, advanced social dynamics, lifehacks, along with filtering strategies for avoiding the time-wasters and inglorious skanks. How to meet a nice girl. Meeting a wife material woman. Yes, it's still possible. Dating post-COVID-19. The global pandemic/plandemic has changed the game; you must adapt. The truth about marrying an exotic foreign woman. Is it for you? Online dating. Navigating the digital minefield of fakers, flakes, liars, and scams. Mindset demystified. Deprogramming the mainstream and counter-culture mindsets that cost you love. Dating abroad. How to do it without getting royally screwed. Avoiding the friend zone. Advanced persuasion and sexual signaling methods. Seducing a virgin. Why this really matters and how to do it. Eliciting yielding Yin energy. Inspiring a woman to adopt your values. Cultivating her devotion. Get laid like a lover and get respect like a patriarchal provider. Tantric sex hacks. Up your bedroom skills with an arsenal of holistic biohacks, both ancient and cutting-edge for life-changing sex. Losing your virginity. Perhaps you're a frustrated virgin or Incel, disappointed with all the crappy advice about how to lose your virginity. 33 steps are broken down for meaningfully losing your virginity. And in these pages, you'll get the red pills on dating, sex, and the fairer sex, without the hopelessness and cynicism. You'll learn about the four red flags of a blender deal-breaker that should make you back away slowly from a woman. You'll learn what qualifies as a virtuous woman with whom you might have a future. And why there are reasons to be optimistic about finding love and even getting married one day. This book is also a story of hope and redemption, the memoir of a reformed pick-up artist who enjoyed the decline all the way from America and Colombia to Ukraine and found edifying joy and meaning between the voluptuous thighs of a beautiful Bulgarian woman on the edge of Europe. Includes 18-hour audiobook narrated by the author. *Moonshot Moments* Milan Kordestani, 2025-04-08
