The Working Life Joanne B. Ciulla, 2011-03-16 A wide ranging look at the allure and changing significance of work With seductions misunderstandings and misinformation everywhere this immensely readable book calls for a new contract with ourselves Drawing from history mythology literature pop culture and practical experience Ciulla probes the many meanings of work or its meaninglessness and asks Why are so many of us letting work take over our lives and trying to live in what little time is left What has happened to the old unspoken contract between worker and employer Why are young people not being disloyal when they regularly consider job changing Employers can't promise as much to workers as before Is that because they promise so much to stockholders Why are there mass layoffs and downsizing in a time of unequaled corporate prosperity And why are the most common lies in business about satisfactory employee performance The traditional contract between employers and employees is over This thoughtful and provocative study shows how to replace it by the one we make with ourselves

The Future of Work, Employment and Social Protection Peter Auer, Bernard Gazier, 2002 This volume comprises the papers and debates of the second France ILO Symposium on the future of work employment and social protection Reflecting the aim of the Symposium itself the book provides in depth reflections on work employment and social protection Designed to be more than an account of the discussions this book is a useful tool for all those interested in labour market transition and the increasing importance of female labour for the future of the labour markets particularly in the developed world The book discusses the need for more family friendly policies and a more radical policy of equality between the sexes The legal dimensions of labour market change are also debated and the book explores the positive and negative sides of globalization and its links with technological change
